The Clark County Board of School Trustees is a dedicated group of community leaders who are elected to overlapping four-year terms and represent a specific geographic region of Clark County. Although each trustee represents a different region, they are dedicated to ensuring the success of every student in the district through clear, concise direction to the superintendent.

Vision Statement

All students have the knowledge, skills, attitudes, and values necessary to achieve academically, prosper economically, and participate in democracy.

CLARK COUNTY

SCHOOL DISTRICT

BOARD OF SCHOOL TRUSTEES

Terri Janison, President Carolyn Edwards, Vice President Sheila Moulton, Clerk Chris Garvey, Member Larry P. Mason, Member Deanna L. Wright, Member Dr. Linda E. Young, Member

Dr. Walt Rulffes, Superintendent

October 13, 2009

Terri Janison, President Members of the Clark County School District Board of School Trustees Residents of Clark County, Nevada:

The Comprehensive Annual Financial Report (CAFR) of the Clark County School District (District), Clark County, Nevada, for the fiscal year ended June 30, 2009, is submitted herewith in accordance with state statute. Nevada Revised Statute (NRS) 354.624 requires school districts to present to their respective boards within four months of the close of each fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants.

This report consists of management's representations concerning the finances of the Clark County School District. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the management of the District. To provide a reasonable basis for making these representations, management of the District has established a comprehensive internal control framework that is designed to compile sufficient reliable information for the preparation of the District's financial statements in conformity with GAAP.

The accounting firm of Kafoury, Armstrong & Co., CPA's, a firm of licensed certified public accountants, was selected to perform the fiscal year 2009 audit. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the federal Single Audit Act of 1996 and related OMB Circular A-133. Kafoury, Armstrong & Co. concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the District's financial statements for the fiscal year ended June 30, 2009, are fairly presented in conformity with GAAP. The auditor's report on the basic financial statements is included as the first component of the financial section of this report. The auditor's report on the internal accounting controls of the District and statement regarding the District's use of monies in compliance with the purpose of each fund are included in the Compliance and Controls Section and will be filed as a public record pursuant to NRS 354.624.

GAAP also require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The District's MD&A can be found on page 4, immediately following the Independent Auditor's Report.

PROFILE OF THE CLARK COUNTY SCHOOL DISTRICT

History, Geography and Population

In 1956, Nevada's multiple school districts were consolidated under terms of state legislation creating countywide school districts. As such, all public educational services provided by the District are restricted to the boundaries of Clark County. Clark County covers 7,910 square miles, includes a countywide population in 2008 of approximately 1.98 million, and is located in the southernmost part of the state. The largest cities within the county, and thus served by the District, include Las Vegas, Henderson and North Las Vegas. Other cities and rural areas served are located as far north as Indian Springs and Mesquite and as far south as Laughlin and Searchlight. Although the District serves the geographic area of Clark County, it is formally a political subdivision of the State of Nevada, which determines the majority of its funding. In addition to state authorized revenues, the District receives funding from federal and local sources and must comply with the concomitant requirements of these funding entities.

Structure of the District

The District is governed by an elected, seven-member Board of School Trustees (Board). The Board members represent specific geographic areas, are elected by the public for four-year overlapping terms, and have the authority to adopt and administer budgets, as well as establish District policy. The Board employs a superintendent to serve as an administrator for the day-to-day operations of the District.

As proposed in early 2009, the District has reorganized into four geographic area service centers and an additional service center comprised of schools from all the others, known as the Superintendent's Schools. An associate superintendent is responsible for each area service center, with four centers established on school campuses within each geographic area. The centers provide access for parents to communicate with service center administration.

The Superintendent's Schools were formed in 2006 and incorporate approximately 43 schools taken from the existing geographic regions. The schools are divided into differing categories for a more focused approach to specialized learning models, including the District's school empowerment model.

Reporting directly to the superintendent are two deputy superintendents, the chief financial officer and the chief human resources officer. The deputy superintendent of instruction is responsible for all instructional areas, including the four area service centers' associate superintendents. The deputy superintendent of student support services is responsible for providing services under Special Education, English Language Learners (ELL), Gifted and Talented Education (GATE), Grants Development and Administration (GDA), and Title I. The chief financial officer is responsible for oversight of the Finance and Operations Division, in addition to the other operational support services of the District.

As of June 30, 2009, the District was operating 210 elementary schools, 59 middle/junior high schools, 45 high schools, and 33 alternative schools and special schools with a total audited student body of 311,221. The District is also the largest non-federal, single-entity public employer in Nevada, employing approximately 38,600 Clark County residents.

District Services

By state mandate, the District is responsible for providing public education in Clark County, Nevada from kindergarten through twelfth grade. The District offers a variety of educational resources, from regular and special education programs to adult and vocational, in order to meet the needs of the children and adults of Clark County.

<u>Kindergarten</u>

Nevada state law requires that children must attend a state-approved kindergarten program or take a developmental assessment test in order to enter the first grade. Currently, the District offers a half-day kindergarten program for all students and a full-day program at selected schools for students with special needs, as well as a tuition-based program at selected schools. State funding was provided to implement full-day programs in all Title I schools. In addition, the tuition-based, full-day program expanded to 46 schools, reaching 2,076 students in 2009.

Magnet / Career and Technical Schools

The District offers 18 magnet schools and programs and 5 vocational schools with programs for students at any grade level who are seeking a more focused area of study than the general curriculum offers. Students may apply for entrance into one of these programs based on their own interests and abilities in areas such as science or the performing arts. The District is on schedule to continue opening career and technical academies, offering additional opportunities for high-tech training, industry certifications, job shadowing, and internships in various fields.

Special Education

Special services are provided for students with disabilities. Trained District employees work with families to offer educational services, along with preparing students for life after school. Both direct and support services are offered for students from ages 3 to 21.

Alternative Education Programs

The District provides alternative education programs designed to give students who are credit deficient and/or require a non-traditional approach to education an opportunity to complete their course requirements. Programs also are designed to provide an alternative setting for students experiencing chronic behavioral problems. Juvenile Court School programs are offered for students who are no longer eligible for enrollment in comprehensive schools, as well as the adjudicated youth of Clark County.

Federal Programs

The District works closely with the state and federal government to take advantage of grants offered to help meet the supplemental needs of its students. With the help of these grants, the District is able to offer programs such as Indian Education, Safe and Drug-Free Schools, Adult Education, and Math and Science Enhancement. The District also offers a food service program subsidized by the federal government to help guarantee a nutritious meal at a nominal price for its students.

Edison Schools

For the past eight fiscal years, the District has partnered with Edison Schools, the nation's largest private manager of public schools, to provide educational services to certain District schools.

Edison currently manages six elementary schools belonging to the District. Edison offers its own special curriculum and education services with the goal of increasing student achievement and test scores at these participating schools.

Distance Education

The District has opened a distance education program that contains a new online virtual high school, which offers full-time and part-time, online, credit-eligible high school courses. Online capacity will enable educational opportunities for students in areas of regular education, special needs, English Language Learner, and credit retrieval programs.

Vegas PBS (Formerly the KLVX Communications Group)

The District is licensee for this local Public Broadcasting System affiliate that also provides services for school, collegiate, and professional education. KLVX, Channel 10 uses its satellite uplink to service a statewide downlink network with over 135 sites at educational institutions. The division also operates two educational channels for a local consortium and twenty closed-circuit TV channels serving schools in Clark and Nye Counties. In addition, a video lending library and a fiber optic video-on-demand service with over 20,000 titles are available to public and private schools.

Charter Schools

Charter Schools within Clark County operate as independent public schools to provide other educational opportunities under the sponsorship of the District. These schools have fewer state regulations imposed upon them than public schools, which allows them to offer an alternative educational environment. To operate in Clark County, charter schools must meet mandated sponsorship requirements and are monitored by the Nevada Department of Education and the District. The District currently sponsors eight charter schools: Agassi College Preparatory Academy, Explore Knowledge Academy, Las Vegas Charter School of the Deaf, Odyssey Charter School, Innovations International, Delta Academy, Rainbow Dreams Academy, and the 100 Academy of Excellence.

Component Unit - Vegas PBS (Formerly the KLVX Communications Group)

The CAFR includes all of the funds of the primary government unit, the District, as well as its component unit, Vegas PBS. Vegas PBS is the local public telecommunications entity and is licensed to the Board of the Clark County School District. In addition to providing instructional services, it operates viewer-supported Public Television KLVX-TV Channel 10 and KLVX-DT digital Channel 11. A network of 29 translators extends Channel 10 programming services to viewers in four states. Vegas PBS is a legally separate entity for which the District's Board serves as the governing body and for which the District is financially accountable. Accordingly, the District's financial statements include Vegas PBS as a blended component unit. Blended component units, although legally separate entities, are in substance part of the primary government unit's operations and are included as part of the primary government unit.

Budgetary Process and Control

The appropriated budget of the District is prepared by fund, program (e.g., regular, special, etc.), function (e.g., instruction, transportation, etc.), and object (e.g., salaries, benefits, etc.). State statute allows transfers among programs or functions within a fund as long as there is no resulting increase in total appropriations and they are made with appropriate administrative approval, along with Board advisement.

Expenditures within governmental funds that exceed budgeted appropriations at the function level are in violation of state statute. Within proprietary funds, expenditures should not exceed budgeted operating and non-operating appropriations. Budget-to-actual comparisons are provided in this report for each individual fund.

FACTORS AFFECTING ECONOMIC CONDITION

Local Economic Outlook

During fiscal year 2009, the student population continued to grow in Clark County; however, the District saw many of its local revenues face moderate to significant declines. Gaming and tourism continue to represent the major industries in the region, and with the national economy experiencing challenges, these discretionary income dependent business sectors have faced strong headwinds. Drops in gaming revenue, tourism, the declining housing market, and tighter credit restrictions have also weakened the once vibrant construction industry in Clark County, and many proposed hotel/casinos have been placed on hold, including some in mid-construction. Clark County's continued diversification in the business sector and favorable tax base did help attract new businesses in the past year. Since Nevada does not impose corporate or personal income tax, nor inventory, special intangible, inheritance, estate, or gift taxes, it remains a favorable business climate for many companies looking to relocate.

In 2008-09, the District saw many of its tax revenues continue the downward trend that began the previous year. While property taxes have maintained growth increases, the District saw other local taxes such as sales tax, room tax, real property transfer tax, and the governmental services tax decrease year-over-year. As reflected in the lower tax collections, the weight of the challenging national economy and weak local housing market continued to bear down on Clark County in the 2008-09 fiscal year.

Gaming and Tourism

Las Vegas, Clark County's largest city, is home to 15 of the 20 largest hotels in the world. Over the past two decades, Las Vegas has become known for more than just legalized gaming as Las Vegas visitors are also offered top quality entertainment, fine dining and shopping, as well as recreational opportunities. Beyond the Strip and casinos, tourists can enjoy Red Rock Canyon, Lake Mead National Recreation Area, Hoover Dam, Mount Charleston and other outdoor attractions.

While tourism and gaming have historically been strong drivers of the Las Vegas economy and its surrounding areas, their effectiveness waned in 2008 as both visitor volume and gaming revenues posted drops from the previous year. From 2007 to 2008, visitors to Las Vegas decreased by 4.4% with Las Vegas welcoming 37.4 million visitors in 2008, 1.7 million fewer than the previous year. Gross gaming revenues continued their slide, decreasing by 9.9% in 2008, a \$1.1 billion year-over-year decline.

Considerably affecting visitor volume, attendance at conventions, trade shows, and meetings decreased by 5.0% to 5.8 million attendees in 2008, while the number of total conventions declined by 5.8%. Overall, the occupancy levels of hotels/motels in Clark County decreased by 4.4% to an average of 86.0%, with an 89.8% average occupancy rate reported for weekends. To accommodate convention and trade show business, total Las Vegas convention capacity is approximately 9.7 million square feet, citywide.

Population Growth

With a high quality of life, low cost of living, and mild weather, Clark County still remains a top choice for relocation; however, Clark County saw its population decrease slightly in 2008, totaling just over 1.98 million inhabitants. The County decreased in size by approximately 10,000 people from 2007 to 2008, a 0.5% decrease. While in past years Clark County had maintained an unemployment rate lower than the national average, making it a desirable relocation destination, Las Vegas

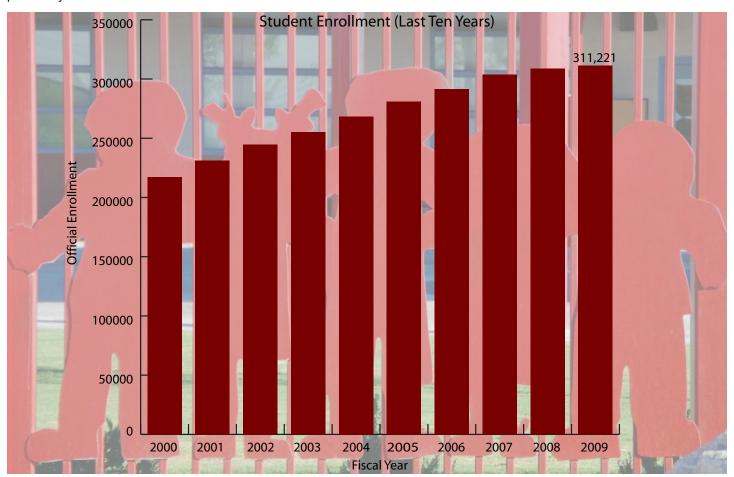

Comprehensive Annual Financial Report

as recently as June 2009 was reporting a record high unemployment rate of 12.3%. Over the past ten years, Clark County had seen its population increase by a yearly average of approximately 4.0%. Even with the population leveling out, many cities within Clark County continue to struggle to accommodate the heavy growth from previous years.

For the past several years, rapid population growth fueled residential and commercial development in southern Nevada. As land developers and housing builders responded to the demand for housing, housing prices rose precipitously. As housing values rose, this in turn increased property taxes. In response to continued property tax increases, the 2005 Legislature enacted Assembly Bill 489 to provide partial abatement of property taxes to provide relief from escalating assessments. In the past few years, demand for housing has reduced dramatically with the resale and new home market moving downward and housing prices along with it. However, the effects of these components have not yet materially affected year-over-year increases in property taxes for the District.

Even with the overall population growth slowing, the student population maintained increases from the previous year. Continued growth over the past ten years in Clark County significantly increased the school population and the need to build schools to accommodate the influx of students. The following chart presents the increase in the school population over the past ten years.

Overall enrollment had, at one time, been projected to exceed 330,000 students by 2013, however, with slower population growth and the lagging economy, long-term enrollment figures are under review. In the 2008-09 school year, the District opened six new schools and four replacement schools. Of the new schools, one is a career and technical academy. The total number of schools currently in operation is 347. Because of the continuous construction of new buildings, 115 of the District's 347 schools have been built in the last 10 years. This makes the average age of a school building just 21 years old. School construction schedules are closely monitored by the District's Demographics and Zoning Department to respond to areas of high enrollment growth.

Proposed/Planned Commercial Construction in Clark County

The commercial construction industry has been hit hard during this current financial crisis, and as funding or demand has dried up for many projects, construction has measurably slowed. Many commercial construction projects, including several

proposed hotel/casinos, mixed-use urban developments, and housing subdivisions planned over the next several years have been halted or are currently on hold. In 2006, several older hotel/casinos, including landmarks such as the Stardust on the Strip, and the Lady Luck located downtown, were demolished to make way for the construction of newer, bigger projects. However, in August 2008, Boyd Gaming stopped construction on its Echelon project, which was to be built on the site of the recently demolished Stardust property. The Echelon project is currently considered to be on indefinite hold. Due to difficult financial conditions, construction has slowed or stopped on several other Strip properties, including the Fontainebleau Las Vegas and a luxury condominium development at the Venetian.

Even with construction slowdowns, by the end of 2009, approximately 12,000 hotel rooms will be added to the 2008 room inventory of 140,529. Major hotel openings this year included Encore, the complement to Steve Wynn's current Wynn Casino, and major expansions by both MGM Grand and Caesar's Palace. By the 2009 year-end, MGM Mirage will open several towers as part of phase one of its unprecedented, \$8 billion urban metropolis, titled City Center. This mixed-use development will include a 60-story, 4,000-room hotel/casino; two 400-room non-gaming hotels; a 500,000-square-foot retail and entertainment district; and approximately 2,700 luxury residences.

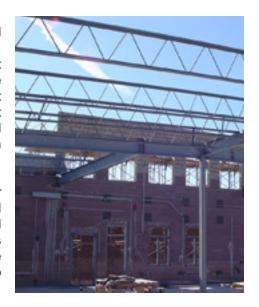

Downtown Las Vegas continues its evolution into a pedestrian friendly, urban environment. The comprehensive plan consists of new commercial, residential, retail, dining, and entertainment establishments. The key component of this project is the 61-acre Union Park in the heart of downtown. The first phase includes plans for a new city hall, two residential towers, and additional facilities such as the Smith Center for Performing Arts and the Cleveland Clinic Lou Ruvo Center for Brain Health, a highly specialized clinical center for advancement of research and treatment of neurological diseases such as Alzheimer's, Parkinson's, Huntington's and ALS. It is expected that Union Park will become the core of downtown and gentrification will expand to peripheral areas in various stages of development, such as the Arts District.

Long-Term Financial Planning

Growth in District Facilities

While the Clark County School District has been one of the fastest growing school districts in the nation, its yearly increases in enrollment have begun to decelerate. Official enrollment for the 2008-09 school year was 311,221, making the District the fifth largest in the nation. While this represented a 2,476 student increase from the previous year, enrollment fell below the projected increase. The District has faced several financial challenges in its significant growth spurt over the past several years, and according to population and demographic projections, it will continue to face challenges associated with school construction and zoning, even with growth moderating in Clark County.

In 2007-08, the District issued the final amount of bonds that were allowed under a voter-approved, ten year construction program backed by property taxes, and in the 2008-09 school year the District continued to use this funding for school construction. Prospectively, the District expects to use this funding to address new school needs through 2010. Due to declining enrollment increases and the volatile economic climate, the Board has at present chosen to delay returning to the voters to fund a future capital program beyond 2010.

Additional funding for school construction is also secured by pledged revenues from the room tax and real property transfer tax in the city and county. The District consistently monitors the three main revenue sources for the bond construction program and is required by statute to maintain a debt reserve account to insure its ability to service the debt.

Budget Reductions

Beginning in December 2007, as the State of Nevada began facing declining revenues, budget reductions were enacted that directly affected the District. The District lost funding for several instructional programs, and from that time to the present, has made significant cuts to its administrative budgets to accommodate reductions in both state and local revenues. Funding for textbooks and instructional supplies was cut significantly in fiscal year 2008-09 through a special session of the legislature, and additional cuts will need to be made for the 2009-11 biennium. During 2008-09, the District held several budget workshops and informational meetings with both internal and external stakeholders in order to determine its options in administering the budget reductions. The District proposed cuts to reduce the budget by approximately \$120 million beginning in the 2009-10 school year, which will affect its ability to continue to offer the same standard of quality educational programs as in the past. In addition, long-term financial planning becomes increasingly complex as revenues fluctuate downward.

Comprehensive Annual Financial Report I

Relevant Financial Policies

It is the District's policy that revenue recognition is handled in accordance with the modified accrual accounting method, which requires that the timing of revenue-related inflows of financial resources be considered. Generally accepted accounting principles (GAAP) direct that governmental funds recognize revenues "in the accounting period in which they become susceptible to accrual—that is, when they become both measurable and available to finance expenditures of the fiscal period." Financial resources should be considered available only to the extent they are "collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period." The District uses an availability period of 60 days from its fiscal year-end for the purpose of revenue recognition. An example of the District's revenue recognition policy would be the following:

The District receives monies from the Clark County Comptroller's Office and the State of Nevada for personal property and sales taxes, respectively. However, the monies for the current period were not received until after the end of the fiscal year, but within the 60 day period of availability. In these instances, the District books a receivable for the amount of taxes and recognizes the revenue.

Major Initiatives

School Empowerment

The Superintendent's Schools region was created to effect school improvement at 43 select District schools. These schools are divided into focused learning programs, including Select Schools, Professional Practice Schools, and Language Acquisition Schools. An additional program, implemented in the Empowerment Schools, is an innovative endeavor to empower the staff at those schools with greater decision-making authority. Administrators at those schools are "empowered" in several ways, including having greater authority over their budgets and more autonomy in selection of their staff, curriculum, and scheduling. In addition, those schools have a longer instructional day and school year, and incentives can be provided for exceptional performance. Empowerment Schools will have their progress closely monitored to verify that they are moving towards their goal of student achievement.

Recruiting and Retaining Qualified Teachers

In order to keep up with continued student growth, the District hired over 1,800 new teachers in the 2008-2009 school year. The District had continued success in attracting teachers with the \$2,000 signing bonus provided by the state for new classroom teachers. In addition, a 4% salary schedule increase was state-funded for the 2008-2009 school year.

Even with this success, the District continues to devise creative ways to attract quality new teachers from all parts of the world. The Alternative Routes to Licensure Program (ARL) provides opportunities for individuals with degrees in other subjects to become teachers. The Special Education Cohort Program assists current District employees and substitute teachers in completing their Bachelor's degrees and becoming certified to teach special education. The District is also enlisting the help of the military organization "Troops to Teachers" and created the program "Hire in Advance." This program is designed to attract qualified military personnel into the classroom. Approved "Troops to Teachers" candidates will be offered a contract one to two years in advance and receive help to obtain the required licenses to teach.

Because of the critical shortage of qualified teachers in the immediate area, the District also expanded its efforts in recruiting teachers from overseas. The State Superintendent is authorized to issue teaching licenses to persons who do not hold United States citizenship or permanent residence status in the United States, if it can be demonstrated that a shortage of teachers exists in the subject area in which the person is qualified, the person meets all other Nevada licensure requirements, and the District agrees to employ the person in the high need area. As a result, the District hired many new math and special education teachers from countries such as Canada, Mexico, Spain and the Philippines.

Student Achievement

The District's highest priority is student achievement, but it is faced with many challenges, including student poverty and language barriers. More than 45% (approximately 138,000 students) of the District's population qualifies for free or reduced-cost meals, and over 20% (approximately 62,000 students) are enrolled in an English Language Learners (ELL) program. The District continues to fund important programs such as ELL and apply for funding under the free and reduced lunch program offered by the federal government. Despite these challenges, the District's administration of the Iowa Tests of Basic Skills/Educational Development shows that elementary school achievement is close to or above the national average (50th percentile). Over the past ten years, ACT scores have exceeded the national average, although moving below as of late, while SAT scores are slightly below the national average.

The experiment with Empowerment Schools provided generally optimistic results in its third year. Compared to the previous years when these schools were under traditional programs, most tests showed some improvement in math and reading.

AWARDS AND ACKNOWLEDGMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Clark County School District for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2008. This was the twenty-third consecutive year that the District has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. The District believes the current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and will be submitting it to the GFOA to determine its eligibility for another certificate.

Timely preparation of this report could not have been accomplished without the efficient and dedicated services of the entire staff of the Accounting Department and the staff of its independent auditors, Kafoury, Armstrong & Co., CPA's. We would like to express our appreciation to all members of the departments who assisted in and contributed to its preparation.

We would also like to thank the members of the Board of School Trustees for their interest and support in planning and conducting the financial operations of the Clark County School District in a responsible and progressive manner.

Respectfully submitted,

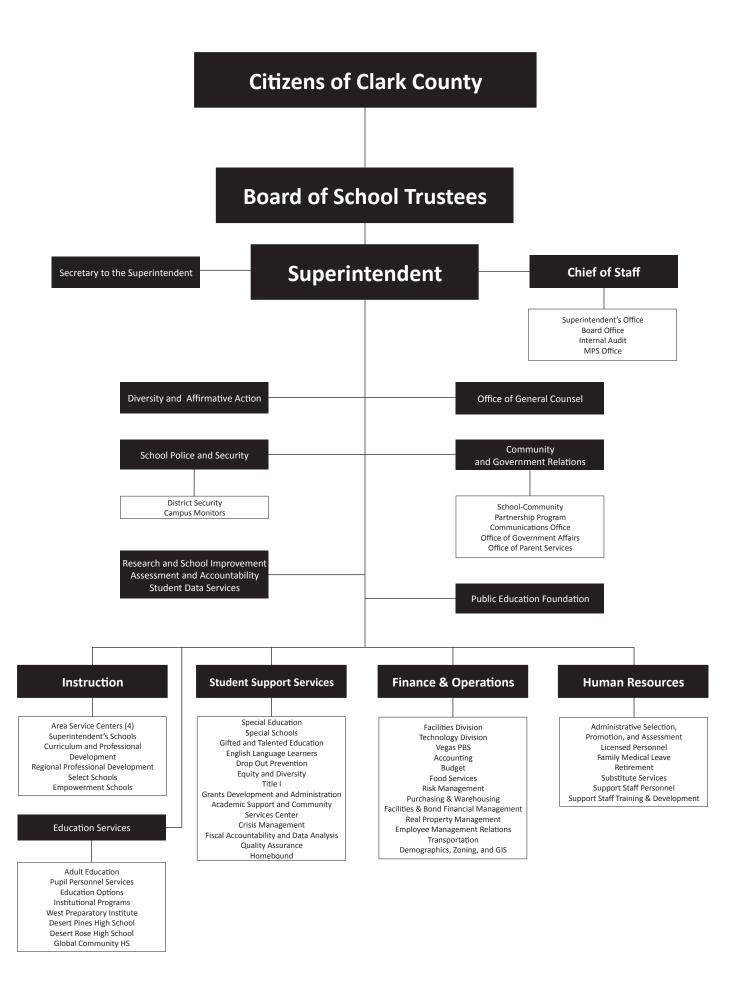

Halt Queffes

INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees of the Clark County School District Clark County, Nevada

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Clark County School District, Clark County, Nevada (the "District"), as of and for the year ended June 30, 2009, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Clark County School District, Clark County, Nevada, as of June 30, 2009, and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparison for the General Fund and Special Education Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America

In accordance with Government Auditing Standards, we have also issued our report dated October 12, 2009, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit

Management's discussion and analysis and schedule of funding progress on pages 4 through 17 and page 66 are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Clark County School District, Clark County, Nevada's basic financial statements. The introductory section, combining and individual fund statements and schedules and statistical section, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The nonmajor combining and individual fund financial statements and schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them

The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations*, and is also not a required part of the basic financial statements of the District. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly presented in all material respects, in relation to the basic financial statements taken as a whole.

Kajoury, armstrong & Co.

Las Vegas, Nevada October 12, 2009

The Management's Discussion and Analysis (MD&A) offers readers a narrative overview and analysis of the Clark County School District's (District) financial statements for the fiscal year ended June 30, 2009. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which precedes this report, and the financial statements, which immediately follow this report.

FINANCIAL HIGHLIGHTS FOR FISCAL YEAR 2009

Following is an analysis of facts, descriptions or conditions of the District, in fiscal year 2009, that had a material effect on its financial position or operating results.

Government-wide Financial Statements

- The overall financial position of the District improved as government-wide net assets increased during fiscal year 2009, from \$1.824 billion to \$1.978 billion, a \$154 million dollar increase.
- Total revenues increased \$35.8 million from \$3.05 billion in fiscal year 2008 to \$3.09 billion in fiscal year 2009, a 1.17% increase which were directly due to continued property tax increases in both the General Fund and the Debt Service Fund over the previous year and increases in state and federal aid received through the Distributive School Account (DSA).
- The DSA normally represents unrestricted state aid; however, in 2009 the Nevada Department of Education used State Fiscal Stabilization Fund (SFSF) revenues, a component of the federal government's American Recovery and Reinvestment Act (ARRA), to provide for its guaranteed DSA payments to the District. As such in 2009, DSA revenue is bifurcated between unrestricted state and federal aid in the statement of activities.
- Total expenses increased \$90 million from \$2.852 billion in fiscal year 2008 to \$2.942 billion in fiscal year 2009, a 3.2% increase. Most functional areas experienced expense increases due to a 4% cost of living adjustment provided by the state which increased personnel costs. In addition, interest costs related to the District's long-term debt increased in the current year, as expected, due to the issuance in previous years of additional general obligation bonds to fund school construction.
- The District's food service business-type activity reported an increase in net assets for the 2009 fiscal year, ending several years of decreases.

Fund Financial Statements

- Ending combined governmental fund balances decreased to \$1.893 billion in fiscal year 2009 from \$2.381 billion in fiscal year 2008, a 20.5% decrease.
- Decreases to the combined ending fund balance were mainly due to construction expenditures directly related to the close out of the District's ten year capital program. Over a billion dollars of bonds were issued in fiscal year 2008 to mark the end of the program and over \$428 million of construction expenditures are reported in the current year.
- While the District did issue general obligation debt in its Debt Service Fund as part of an advance refunding, no school construction bonds were issued in the current year.
- As additional long-term debt matured and more general obligation debt was issued in prior years the Debt Service Fund reported a 35% increase in debt-servicing costs associated with principal and interest payments.

- As the economy continued to struggle, combined local revenues recorded a \$46 million dollar drop from the previous year focused mainly in the General Fund and the Bond Fund. These funds saw revenues such as sales tax, governmental services tax, room tax, and the real estate transfer tax decrease from the prior year.
- State and federal sources of revenue reported in both the General Fund and the Special Education Fund are made up primarily of unrestricted state and federal aid received as DSA payments from the state. Overall DSA payments increased in these funds when combined from both state and federal sources, however, the original guaranteed DSA amount was cut significantly through a special session of the legislature.
- The other governmental funds experienced a 13% overall drop in state revenue sources as several state grants were eliminated to meet state mandated budget reduction requirements.

General Operating Fund Balance

- Ending fund balance in the General Fund increased from \$163 million in fiscal year 2008 to \$167 million in fiscal year 2009, a 2.3% increase. This was due to a combination of revenue increases from the previous year and expenditure savings across the board as the district worked to accommodate required budget reductions.
- While many revenues reported year-over-year declines, total General Fund revenues increased \$50 million dollars to \$1.968 billion in fiscal year 2009. Both property taxes and the state provided DSA revenues helped compensate for reduced collections in sales tax, governmental sales tax and reductions in investment income due to the low interest rate environment.
- The District maintained spending levels well below budgeted amounts across all spending categories and reported
 expenditure savings through salary vacancies, reduced utility costs, and significant cost savings related to the
 hibernation of its Enterprise Resource Planning system, an integrated computer business software program.
- The District maintained its ability to fund the unreserved undesignated (spendable) portion of fund balance to 2% of general operating revenue in fiscal year 2009 per District Regulation 3110. Unreserved undesignated fund balance is reported at \$40.8 million in 2009.
- The District has been able to designate additional funding in its general operating fund for categorical indirect costs, insurance reserves for its support staff, for surplus school balance carryovers and to designate funding for potential revenue shortfalls in the next fiscal year that will impact the general operating budget.

OVERVIEW OF THE FINANCIAL STATEMENTS

The District's basic financial statements are comprised of government-wide financial statements, fund financial statements, and notes to the financial statements. Following is a brief discussion of the structure of the basic financial statements.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with an assessment of the overall financial position and activities of the District as a whole. These statements are structured around the primary government, not including fiduciary funds. They are further divided into governmental activities and business-type activities. Governmental activities being those generally financed through taxes and intergovernmental revenues, while business-type activities are those financed to some degree by charging external parties for goods received.

The statement of net assets combines and consolidates all of the District's current financial resources (short-term spendable resources) with capital assets and long-term obligations using the accrual basis of accounting. The end result is net assets that are segregated into three components: invested in capital assets, net of related debt; restricted and unrestricted net assets.

The statement of activities presents information showing how the District's net assets changed during fiscal year 2009. All changes in net assets are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, there are some revenues and expenses reported in this statement that will result in cash flows in future fiscal periods. All expenditures are reported by related function as prescribed by the Nevada Department of Education Handbook II Accounting System.

Fund Financial Statements

The District uses fund financial statements to provide detailed information about its most significant funds. All of the funds of the Clark County School District can be divided into three categories:

Governmental Funds – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements described above. However, unlike the government-wide financial statements, governmental fund financial statements use the modified accrual basis of accounting, which focuses on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. To provide a better understanding of the relationship between the fund statements and government-wide statements, a reconciliation is provided for a more comprehensive picture of the District's financial position.

Proprietary Funds – Funds that focus on the determination of operating income, changes in net assets (or cost recovery), financial position, and cash flows are reported in the proprietary funds. The District reports two types, enterprise funds and internal service funds. Enterprise funds are used to report an activity where a fee is charged to external users. The District's sole enterprise fund, the Food Service Enterprise Fund, is used to account for food service operations within the District. Internal service funds report activities that provide goods and services to the other departments of the District. The District reports two internal service funds, the Insurance and Risk Management Fund, and the Graphic Arts Production Fund.

Fiduciary Funds – Funds that are used to report assets held in a trustee or agency capacity for others and therefore cannot be used to support the government's own programs. The District currently holds assets related to student activities of various schools in its single fiduciary fund, the Student Activity Agency Fund.

Notes to the Financial Statements

The notes to the financial statements complement the financial statements by describing qualifying factors and changes throughout the fiscal year.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted previously, the government-wide statements are structured to report financial information on the District as a whole, excluding fiduciary funds. Condensed financial information with comparative amounts from the prior year is presented along with accompanying analysis.

Clark County School District's Net Assets:

The District's assets exceeded liabilities by \$1,977,813,490 at the close of the current fiscal year and total net assets increased by \$153,653,603 resulting in an 8.42% increase in net assets.

Governmental Activities

The District's total net assets in governmental activities is \$1,953,761,160 of which, unrestricted assets total \$168,041,357. These are used to meet the ongoing obligations of the District.

Portions of total net assets are subject to external restrictions as to how they may be used. In the current fiscal year, restricted assets include assets for servicing long-term general obligation bonded debt in the amount of \$588,448,396, assets related to bond proceeds and other revenues to be used in the District's capital projects programs in the amount of \$363,855,314 and net assets restricted for other purposes include a deposit made with the State of Nevada for the District's worker's compensation self-insurance program in the amount of \$6,260,000 and a total of \$1,424,040 in term endowments made over time to Vegas PBS.

Business-type Activities

Business-type activities consist solely of the District's Food Service Enterprise Fund. Net assets in this fund increased by 0.2% to \$24,052,330 and revenues exceeded expenses by \$46,173. Food Service is reporting approximately \$15 million in unrestricted assets.

Governmental Activities

Net Assets

Governmental activities increased the District's net assets by \$147,690,763, accounting for almost all of the growth in net assets for the District as a whole. Increases in net assets can be directly correlated to revenue increases in property taxes, unrestricted state aid, and unrestricted federal aid through receipt of stimulus funds. In addition, most expenditure functions only reported moderate increases and in some instances, large decreases from the previous year.

Revenues

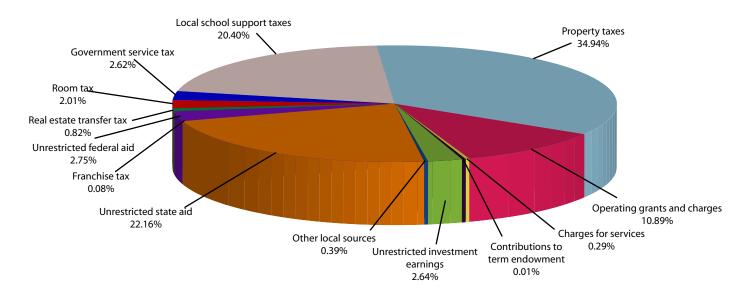

The largest general revenues received by the District include aggregated property taxes in the amount of \$1,050,034,589, unrestricted state aid in the amount of \$666,045,473, and local school support tax in the amount of \$613,140,653. These revenues represent 34.94, 22.16, and 20.40 percent, respectively, of total revenues for the current fiscal year.

While sales tax slipped considerably from last year's figures, these amounts are compensated by additional increases in property taxes and required state aid through a guaranteed funding mechanism known as the Nevada Plan. The District is legislatively guaranteed to receive a specific amount of per-pupil funding from the state and is apportioned that funding through components of both sales and property taxes. The state is required to provide funding to meet the residual amount that is not collected through these taxes.

As stated earlier, the state used components of the ARRA State Fiscal Stabilization Funds to complete its required payments to the district. These funds, while normally reported as unrestricted state aid, are reported as unrestricted federal aid in the current year and account for the large increase in this category.

Due to continued local and national economic challenges many other revenues have decreased in collection from the previous year. Investment income has continued its drop as interest rates remain low.

Governmental Activities - Revenue Sources**

Expenditures

- Instruction related expenditures represent more than 57% of total governmental expenses. They consist of regular, special, vocational, adult and other instructional program expenditures, with over 98% of these dollars spent on regular and special education.
- Operation and maintenance of plant services account for the next highest expenditures with approximately 9.35% of total expenditures. These expenditures include utility and maintenance costs meant to provide upkeep for the District's schools and administrative facilities.
- Student transportation reported a greater than 9% expenditure increase from the previous year due to an \$8.2 million bus purchase to assist with growth and to replace older vehicles.
- General administration expenditures fell by a significant amount as several administrative and support positions were properly reclassified to the central services function.
- Facilities acquisition and construction services dropped more than 28% year-over-year due to overhead reductions in administering the school construction program.
- The other support services functional expenditures dropped related to changes in the way indirect cost expenditures are reported, as they are now recorded as costs of various functions.

Since salaries and benefits account for the majority of expenditures at the District, the 4% cost of living adjustment that all employee groups received played a large role in the increase in total expenditures throughout all District functions. Overall total expenditures in governmental activities increased a modest 3.56% from the previous year.

Business-type Activities

Business-type activities consist solely of the District's Food Service Enterprise Fund. In the current fiscal year, this activity increased net assets by \$46,173.

Food service student charges and federal subsidies including contributions of commodity food products account for almost 100% of the revenues received by business-type activities, with student charges representing approximately 29.28% and federal subsidies accounting for 70.46%.

The majority of the expenses in business-type activities are for food purchases and personnel expenses, including salary and benefits, to maintain the District's food service program.

(1.53)%

Revenues from charges for services decreased in fiscal year 2009 mainly due to the fact that the Provision 2 program was discontinued in 30 schools which decreased participation. In addition, a la carte sales dropped \$1.5 million due to increased competition from secondary school's student stores and fund raising activities.

ANALYSIS OF GOVERNMENTAL FUND BALANCES AND TRANSACTIONS

Governmental funds use fund accounting and follow the modified accrual basis of accounting which focuses on short-term sources and uses of spendable resources. Following is an analysis of individual fund balances and material transactions.

Total Revenues

At the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$1.893 billion, a decrease of over \$487 million from last year mainly due to spending within the construction program, no school construction bond issues, staff vacancies, and expenditure reductions due to budget cuts. Approximately 31% of this fund balance is reserved, while 69% is unreserved. Of the unreserved portion of fund balance, \$1,229,563,321 is designated for various projects throughout the District including school construction, capital improvements, and potential future revenue shortfall. Unreserved undesignated fund balance, for all governmental funds which serves as a useful measure of the District's net resources, as a whole, available for spending is \$71,655,657, or 3.8% of the total fund balance.

The main operating fund of the District is the General Fund. At the end of the current fiscal year, the total fund balance in the General Fund was \$167,310,793; reserved portion totaled \$3,558,623 and the unreserved designated portion was \$122,943,664. The unreserved undesignated portion which represents spendable resources was \$40,808,506, representing 24% of the total fund balance or 2% of the general operating budget resources.

Although reported separately, the Special Education Fund is budgeted for in combination with the General Fund and together they represent the general operating budget of the District. Any deficiencies of revenues under expenditures in the Special Education Fund are compensated for through a transfer from the General Fund. The transfer from the General Fund to cover special education expenditures in fiscal year 2009 was \$255,162,138. This is an increase over the previous year needed to accommodate salary and benefit cost of living increases.

The District's Debt Service Fund ending fund balance decreased by \$44 million, from \$632 million in fiscal year 2008 to \$588 million in fiscal year 2009. The Debt Service Fund experienced an 8.6% increase in property tax revenue from the previous year. The decrease in investment income of \$13 million and the increase in debt service payments of \$156 million for principal and interest, contributed to the decrease in ending fund balance for the fiscal year 2009.

The District's Bond Fund reported a decrease in fund balance of \$430 million due, in part, to the decrease in revenue from real estate transfer tax and room tax of \$22 million. No new school construction debt was issued in 2009. The District received almost \$85 million in combined revenues from the room tax and real property transfer tax. These taxes are pledged to reduce specific outstanding debts. The transfer out of \$81 million is the transfer to the Debt Service Fund to service these debts.

BUDGETARY HIGHLIGHTS

The "Original Budget" reflected in the General Fund was approved on May 21, 2008. Budgeted appropriations were developed with certain major determinants remaining unknown; most significant was the final certified student enrollment, State revenues and local property tax collections, and the prior year's ending fund balance. For this reason, the "Original Budget" was approved and submitted based upon future resolution of various unknown issues.

The "Final Budget" reflects administration's best estimates and includes all transfers, additions, and deletions that have been approved through June 30, 2009 and more accurately denote total appropriation activity throughout the year then ended.

Nevada Revised Statues and District regulations require that school districts legally adopt budgets for all funds. Budgets are prepared in accordance with generally accepted accounting principles. Budgeted amounts reflected in the accompanying financial statements recognize amendments made during the year. The "Final Budget" is prepared by fund, program, and function. All appropriations lapsed at year-end and certain encumbrances will be re-appropriated in 2009-10.

There were several negative variances between the original and final budgets in the General Fund and Special Education Fund that should be noted (see following page):

- In the regular programs, instruction function, appropriations for purchased services increased by \$1 million in reaction to the funding terms in the contractual arrangement with Edison Schools, Inc. to reflect increased revenues per pupil generated by the third party provider.
- The vocational programs, instruction function, supply allocations were increased by \$1.4 million mostly to provide the supply, textbook, and equipment requirements for the one career and technical academy that opened in fiscal 2008-09 and the pre-opening needs for two career and technical academies scheduled to open in fiscal 2009-10.
- The instructional staff support services function received an additional \$4.1 million for computer and technological supplies to upgrade the District's networking capacity and user support services. Also, several large purchases were encumbered in fiscal 2008 and subsequently expended in fiscal 2009 when the items were received.
- The central services function, employee salary and benefits appropriations were increased by a net of \$8.3 million following an adjustment to the method of recognizing employee turnover attrition savings. Supply object cost categories were increased by \$1 million for software and business support items through transfers of funds previously intended for purchased services expenditures.
- The student transportation function, benefits appropriations were increased by \$1.6 million to cover group insurance premiums for retired transportation employees. The supply allocation for vehicle fuel was revised by \$1.9 million in anticipation of continued, extraordinary increases in energy costs.
- Also in the student transportation function, the property cost object for bus purchases was increased by \$8.2 million to acquire buses necessary to replace those vehicles determined beyond further economic repair.
- The Special Education Fund, special programs other support services function for purchased services required an increase of \$3.1 million to finance the increased need for speech and nursing services from out of District sources.
- The Special Education Fund, student transportation function benefits appropriations were increased by almost \$1 million to cover employee group insurance premiums.

The Board adopted the 2008-09 Amended Final Budget for the General Fund in December 2008 that reflected total resources and applications of \$2,201,090,000 including a projected ending fund balance of \$83,655,000. Actual revenues were \$8.2 million greater than projected due to a better than anticipated collection of property taxes and a more favorable return on investment income than budgeted. While local school support (sales) taxes were \$26.9 million less than projected, the difference was offset from the combined proceeds from the State's Fiscal Stabilization Fund and Distributive School Account (DSA) guarantee along with a favorable variance of \$10.5 million for property tax collections.

The actual ending fund balance of \$167,310,793 was \$83.6 million higher than budgeted. The unreserved-undesignated (spendable) portion decreased by \$2 million over 2008 due to a method change in the calculation of the reserve to one based upon total revenues as compared to previous years based upon total resources (consisting of beginning fund balance). For fiscal 2009, General Fund revenues were \$8.2 million higher than anticipated while total expenditures finished with a positive variance of \$73.9 million and net transfers were \$1.5 million under budget.

CAPITAL ASSETS AND LONG-TERM DEBT

Capital Assets

At June 30, 2009, the District held approximately \$4.9 billion invested in a broad range of capital assets, net of depreciation, including land and improvements, buildings and improvements, and equipment. This amount represents a net increase (including additions, disposals, and depreciation) of \$266 million or 6% from last year. The following tables reflect additions and disposals of capital assets for governmental and business-type activities (see following page).

CLARK COUNTY SCHOOL DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2009

Governmental Activities Capital Assets:

| | Balance | | | | | | Balance |
|--------------------------------|---------------------|-----------|---------------|-----------|---------------|----|-----------------|
| | June 30, 2008 | Additions | | Disposals | | | June 30, 2009 |
| | | _ | | | | _ | |
| Land | \$ 263,431,026 | \$ | - | \$ | (601,652) | \$ | 262,829,374 |
| Land Improvements | 866,595,993 | | 298,138,355 | | (1,309,406) | | 1,163,424,942 |
| Buildings | 3,281,167,147 | | 515,072,335 | | (3,790,836) | | 3,792,448,646 |
| Building Improvements | 824,915,636 | | 49,810,280 | | (76,870,524) | | 797,855,392 |
| Equipment | 281,886,532 | | 65,072,607 | | (6,182,355) | | 340,776,784 |
| Construction in Progress | 504,806,677 | | 483,009,251 | | (839,990,878) | | 147,825,050 |
| Less: Accumulated Depreciation | (1,384,444,166) | | (222,086,669) | | 6,051,712 | | (1,600,479,123) |
| Total Capital Assets, Net | \$ 4,638,358,845 | \$ | 1,189,016,159 | \$ | (922,693,939) | \$ | 4,904,681,065 |

The majority of the increase in capital assets relates to the construction or improvement of District school buildings. In fiscal year 2009, the District opened six new schools and four replacement facilities, which are reported as additions to buildings with another six new schools and one replacement school scheduled to open in fiscal year 2010. Additions to land and building improvements include expansions and renovations to existing district facilities. Construction in progress additionally includes school renovations, improvements and expansions to existing schools as well as work performed to completely replace some older existing schools.

Equipment additions include purchases for school buses, maintenance and administrative vehicles and technology such as computer hardware.

Business-type Activities Capital Assets:

| | Jı | Balance June 30, 2008 Additions | | Disposals | Balance June 30, 2009 | | |

| Total Capital Assets, Net | \$ | 8,912,403 | \$ | 44,514 | \$ (145,760) | \$ 8,811,157 | |

Additional information on the District's capital assets can be found in note 5 on pages 54-55 of this report.

Long-term Debt

The Clark County School District maintains and operates one of the largest school construction programs in the United States funded through the issuance of municipal bonds. Before bonds can be sold, the District provides information to various bond raters to obtain bond ratings for the proposed issue. Much of the information centers on the financial stability of the District and how it responds to various financial situations. Financial meetings and information provided to the rating agencies have resulted in the District maintaining the following high investment-grade rating with Moody's Investor Services (Aa2), Fitch (AA) and Standard and Poor (AA). Southern Nevada's continued economic expansion as well as the District's fiscal stability has resulted in high investment-grade bond ratings leading to favorable interest rates for its bond issues.

CLARK COUNTY SCHOOL DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2009

As of June 30, 2009, the District carried approximately \$4.89 billion in debt, including general obligation bonds and liabilities for compensated absences. The District issues general obligation bonds to finance various projects including, but not limited to constructing or purchasing new buildings, enlarging, remodeling or repairing existing buildings or grounds, acquiring sites for new buildings, paying expenses relating to the acquisition of school facilities which have been leased by a school district, and purchase necessary furniture and equipment for schools including equipment used for the transportation of pupils. The following table summarizes long-term debt activity over the past fiscal year.

Long-term Debt and Capitalized Lease Obligations:

| | Balance June 30, 2008 | 8 Issuances | | Retirements | | , | Balance June 30, 2009 |
|--|--------------------------|-------------|--------------|-------------|---------------|----|--------------------------|
| Governmental Activities: | | - | | | | | |
| General Obligation Debt | \$ 5,021,005,001 | \$ | 129,210,000 | \$ | (479,250,001) | \$ | 4,670,965,000 |
| Plus: Premiums | 307,132,853 | | 4,015,358 | | (23,545,470) | | 287,602,741 |
| Less: Discounts | (1,006,336) | | - | | 1,006,336 | | - |
| Less: Deferred Losses | (116,611,734) | | (14,819,858) | | 11,570,820 | | (119,860,772) |
| General Obligation Debt, Net | 5,210,519,784 | | 118,405,500 | | (490,218,315) | | 4,838,706,969 |
| Compensated Absences Payable | 52,522,219 | | 27,294,342 | | (25,332,925) | | 54,483,636 |
| Total Long-term Debt, Net | \$ 5,263,042,003 | \$ | 145,699,842 | \$ | (515,551,240) | \$ | 4,893,190,605 |
| Business-type Activities: Compensated Absences | \$ 1,098,569 | \$ | 486,133 | \$ | (543,855) | \$ | 1,040,847 |

Per Nevada Revised Statute Chapter 387.400, the debt limitation for the District is equal to 15 percent of the assessed valuation of property, excluding motor vehicles. The debt limitation currently applicable at June 30, 2009 is \$17,368,530,083. It is expected that future increases in assessed valuation and the retirement of bonds will result, at all times, in a statutory debt limitation in excess of outstanding debt, subject to changes in assumptions, costs and revenues.

On June 4, 2009 the District issued Series 2009B for \$129,210,000. This bond was issued to take advantage of favorable market conditions by advance refunding the District's outstanding general obligation debt. The refunding issue had a present value savings of \$10,491,078.

The District's liability for compensated absences continued to grow with combined governmental and business-type activities reporting \$55,524,483 in compensated absences payable at June 30, 2009. This represents a 4% increase over the previous year. In the current year, this liability increased due to increased cost of living adjustments, upward movement by employees on the salary table, and an increase in District staff.

Additional information on the District's long-term debt can be found in notes 8, 9 and 10 on pages 57-60 of this report.

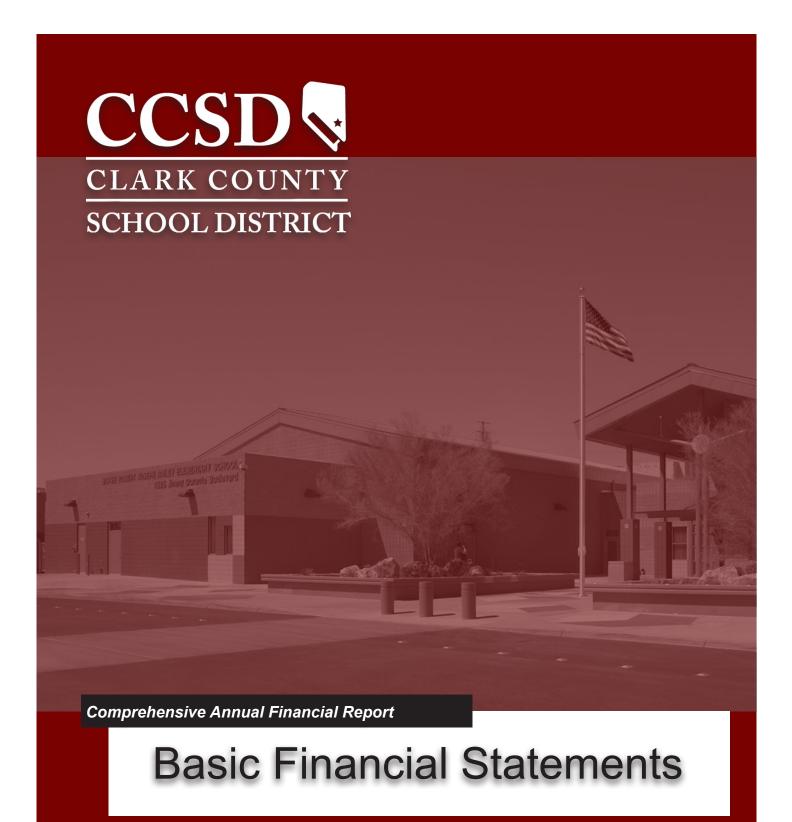

CLARK COUNTY SCHOOL DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2009

REQUESTS FOR INFORMATION

This financial report is designed to provide its users with a general overview of the Clark County School District's finances and to demonstrate the District's accountability for the revenues it receives. Additional information and an electronic copy of this report may be found at the District's web site, www.ccsd.net. Any further questions, comments or requests for additional financial information should be addressed to:

Comprehensive Annual Financial Report ■

CLARK COUNTY SCHOOL DISTRICT
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN
FUND BALANCE OF THE GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED JUNE 30, 2009

Net change in fund balances - governmental funds

\$ (493,534,982)

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays to purchase or build capital assets are reported in the governmental funds as expenditures. However, for governmental activities those costs are shown in the statement of net assets and allocated over their estimated useful lives as annual depreciation expenses in the statement of activities.

273,479,552

Property taxes that are collected in time to pay obligations of the current period are reported as revenue in the fund statements. However, amounts that relate to prior periods that first become available in the current period should not be reported as revenue in the statement of activities.

8.073.230

The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.

361,045,649

The net revenues of the District's Insurance and Risk Management Internal Service Fund and the Graphic Arts Production Internal Service Fund are not reported in this financial statement because they are presented on a different accounting basis (in the proprietary fund financial statements), but they are presented in the statement of activities.

4,043,576

Generally expenditures recognized in the fund financial statements are limited to only those that use current financial resources, but expenses are recognized in the statement of activities when incurred.

(2,204)

Gains and losses are not presented in this financial statement because they do not provide or use current financial resources, but they are presented in the statement of activities.

(5,414,058)

Change in net assets of governmental activities

147,690,763

| Commodity revenue ² | \$ | 5,805,098 | \$ | - | \$ 5,805,098 | |

¹ Contribution of capital assets represents and increase in capital assets contributed from governmental funds that did not affect cash.

² The District received the equivalent of \$5,805,098 in fair market value of commodity food inventory from the federal government. The net effect of this non-cash transaction increased the value of inventory. Consumption of commodity revenue throughout the year resulted in a reduction of inventory and a charge to operating expenses.

CLARK COUNTY SCHOOL DISTRICT

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2009

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

REPORTING ENTITY

The accompanying financial statements include all of the activities that comprise the financial reporting entity of the Clark County School District (District). The District is governed by an elected, seven member, Board of School Trustees (Board). The Board is legally separate and fiscally independent from other governing bodies; therefore, the District is a primary government and the District is not reported as a component unit by any other governmental unit. The accounting policies of the District conform to generally accepted accounting principles as applicable to governmental entities. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial principles.

Blended Component Unit

The District is licensee for the local Public Broadcasting System affiliate, Vegas PBS. Because the Board is substantively the same as the governing body for Vegas PBS, there is sufficient representation of the District's governing body over Vegas PBS to allow for complete control of Vegas PBS's activities. Therefore, the financial activities of Vegas PBS are included in these statements as a blended component unit. Blended component units, although legally separate, are, in substance, part of the government's operations. Separately issued financial statements for Vegas PBS can be obtained by contacting their financial department at the following address:

Vegas PBS 3050 E. Flamingo Rd. Las Vegas, NV 89121

A summary of the District's significant accounting policies follows.

BASIC FINANCIAL STATEMENTS

The District's basic financial statements consist of the government-wide statements and the fund financial statements. The government-wide statements include a statement of net assets and a statement of activities, and the fund financial statements include financial information for the three fund types: governmental, proprietary and fiduciary. Reconciliations between the fund statements, the statement of net assets, and the statement of activities are also included along with statements of revenues, expenditures and changes in fund balances for the District's General Fund and its major special revenue fund, the Special Education Fund.

Government-wide Financial Statements

The government-wide financial statements are made up of the statement of net assets and the statement of activities. These statements include the aggregated financial information of the District as a whole, except for fiduciary activity. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. As a general rule, the effect of interfund activity has been removed from these statements, however, any interfund services provided and used are not eliminated in the process of consolidation.

The statement of net assets presents the consolidated financial position of the District at year-end, in separate columns, for both governmental and business-type activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or program are offset by program revenues. Direct expenses are those that are specifically associated with a program or service and are, therefore, clearly identifiable to a particular function. Program revenues include operating grants and contributions and investment earnings legally restricted to support a specific program. Taxes and other revenues properly not included among program revenues are reported instead as general revenues. This statement provides a net cost or net revenue of specific programs and functions within the District. Those functions with a net cost are generally dependent on general-purpose tax revenues, such as property tax, to remain operational.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fund Financial Statements

The financial accounts of the District are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts comprised of assets, liabilities, fund equity, revenues, and expenditures or expenses, as appropriate. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

The presentation emphasis in the fund financial statements is on major funds, for both governmental and enterprise funds. Major funds are determined based on minimum criteria set forth in GASB Statement Number 34. Major individual governmental funds and major individual enterprise funds are required to be reported in separate columns on the fund financial statements. However, currently the District has no major enterprise funds. The District may also display other funds as major funds if it believes the presentation will provide useful information to the users of the financial statements, which is the case with the District's Special Education Fund.

MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND BASIS OF PRESENTATION

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary funds. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Gross receipts and sales taxes are considered "measurable" when in the hands of intermediary collecting governments and are then recognized as revenue. The government considers property tax revenues to be "available" if they are collected within 60 days of the end of the current fiscal period. Anticipated refunds of taxes are recorded as liabilities and reductions of revenue when they are measurable and the payment seems certain. In general, expenditures are recorded when liabilities are incurred. The exception to this rule is that principal and interest on debt service, as well as liabilities related to compensated absences and claims and judgments, are recorded when payment is due.

In addition, the District's agency fund is reported under the accrual basis of accounting.

The major revenue sources of the District include state distributive fund revenues, local school support taxes, ad valorem taxes, real estate transfer taxes, room taxes, interest income, and the governmental services tax.

All of the District's major funds are governmental funds. The District reports the following major governmental funds:

General Fund - The General Fund is the general operating fund of the District. It is used to account for all resources and cost of operations traditionally associated with governments, which are not required to be accounted for in other funds.

Special Education Fund - The Special Education Fund accounts for transactions of the District relating to educational services provided to children with special needs as supported by state and local sources.

Debt Service Fund - The Debt Service Fund is used to account for the collection of revenues, payment of principal and interest, and the cost of operations associated with debt service for general obligation debt.

Bond Fund - The Bond Fund accounts for the costs of capital improvements and constructing major capital facilities paid for by bond proceeds, related interest earnings, and proceeds from real estate transfer taxes and room taxes.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Additionally the District reports the following fund types:

Proprietary Funds

Enterprise Fund – The enterprise fund is used to account for operations financed and operated in a manner similar to a private business enterprise where the intent of the governing body is for the cost (expenses, including depreciation) of providing goods and services to the schools and other locations on a continuing basis to be financed or recovered primarily through charges or fees to customers. Currently, the District has one Enterprise Fund.

Food Service Enterprise Fund - The Food Service Enterprise Fund accounts for transactions relating to food services provided to schools and other locations. Support is provided by customer fees and federal subsidies.

Internal Service Funds Internal service funds are used to account for the financing of goods or services provided by one department to other departments of the District on a cost reimbursement basis. Currently, there are two District Internal Service Funds.

Insurance and Risk Management Fund - The Insurance and Risk Management Fund accounts for transactions relating to insurance and risk management services provided to other District departments on a cost reimbursement basis.

Graphic Arts Production Fund - The Graphic Arts Production Fund accounts for transactions relating to printing services provided to other District departments on a cost reimbursement basis.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The District has elected not to follow this subsequent private-sector guidance.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's food service enterprise fund and of the District's internal service funds are charges to customers for sales and services. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Fiduciary Funds

Agency Fund – Agency funds are used to report assets held in a trustee or agency capacity for others and therefore cannot be used to support the government's own programs. All assets reported in an agency fund are offset by a liability to the party on whose behalf they are held.

Student Activity Agency Fund – The District's Student Activity Agency Fund reports assets held in an agency capacity for student groups and organizations.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

BUDGETS AND BUDGETARY ACCOUNTING

Nevada Statutes and District policies and regulations require that school districts legally adopt budgets for all funds except fiduciary funds. The budgets are filed as a matter of public record with the County Auditor, and the State Departments of Taxation and Education. The District staff uses the following procedures to establish, modify, and control the budgetary data reflected in the financial statements:

- 1. The statutes provide for the following timetable in adoption of budgets:
 - (a) Before April 15, the Superintendent of Schools submits to the Board of School Trustees a tentative budget for the upcoming fiscal year. The tentative budget includes proposed expenditures and the means to finance them.
 - (b) Before the third Wednesday in May, a minimum of seven days' notice of public hearing on the final budget is published in a local newspaper.
 - (c) Before June 8, the Board of School Trustees must adopt a final budget.
- 2. On or before January 1, the Board of School Trustees adopts an amended final budget reflecting any adjustments necessary as a result of the completed count of students.
- 3. NRS 354.615 provides that the Board of School Trustees may augment the budget at any time by a majority vote of the Board providing the Board publishes notice of its intention to act in a newspaper of general circulation in the county at least three days before the date set for adoption of the resolution.
- 4. NRS 354.598005 allows appropriations to be transferred within or among any functions or programs within a fund without an increase in total appropriations. If it becomes necessary during the course of the year to change any of the departmental budgets, transfers are initiated by department heads and approved by the appropriate administrator. Transfers within program or function classifications can be made with appropriate administrative approval. The Board of School Trustees is advised of transfers between funds, program, or function classifications and the transfers are recorded in the official Board minutes.
- 5. Budgeted appropriations may not be exceeded by actual expenditures of the various functions of the General Fund, Special Revenue and Capital Projects Funds. The sum of operating and non-operating expenses in the Enterprise and Internal Service Funds may not exceed total appropriations.
- 6. Generally, budgets for all funds are adopted in accordance with generally accepted accounting principles. Budgeted amounts reflected in the accompanying financial statements recognize amendments made during the year. Individual amendments were not material in relation to the original appropriation.
- 7. Encumbrance accounting is employed in governmental funds. Encumbrances (e.g. purchase orders, contracts) outstanding at year end are reported as designations of fund balances and do not constitute expenditures or liabilities because the commitments will be reappropriated and honored during the subsequent year.

POOLED CASH AND INVESTMENTS

Cash includes cash deposited in interest-bearing accounts at banks and cash in custody of fiscal agents. Investments consist of United States Treasury bills and notes, government agency securities, banker's acceptances, commercial paper, negotiable certificates of deposit, money market mutual funds, and collateralized repurchase agreements. Investments are reported at fair value on the balance sheet. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties other than in a forced or liquidation sale. Changes in the fair value of District investments are part of investment income that is included in revenues from local sources. See Note 3.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

CASH AND CASH EQUIVALENTS

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, non-negotiable certificates of deposit and short-term investments with original maturities of three months or less from the date of acquisition.

ACCOUNTS RECEIVABLE

Property Taxes

All property taxes collected within 60 days of year end are reported as accounts receivable as of June 30, 2009 as well as those taxes assessed but not yet received. The Clark County Treasurer, based on the assessed valuation at January 1st of each year, levies taxes on real property. A lien is placed on the property subject to the payment of taxes on July 1st of each year and the taxes are due on the third Monday in August. Taxes may be paid in quarterly installments on or before the third Monday in August, and the first Monday in October, January, and March. If not paid, the County Treasurer is authorized to hold the property for two years, subject to redemption upon payment of taxes, penalties, interest, and costs. If delinquent taxes are not paid within the redemption period, the County Treasurer obtains a property deed free of encumbrances. Upon receipt of a deed, the County Treasurer may sell the property to satisfy the tax lien. Article X, Section 2, of the Nevada Constitution limits the taxes levied by all units of Clark County to an amount not to exceed \$5 per \$100 of assessed valuation. The 1979 Nevada Legislature enacted provisions whereby starting July 1, 1979, the combined overlapping tax rate was limited to \$3.64 per \$100 of assessed value. The assessed value is annually adjusted.

INVENTORIES

Instructional materials and general supplies inventories (recorded in the General Fund) are valued at weighted average cost. Transportation supplies (recorded in the General Fund) and food service inventories (recorded in the Enterprise Fund) are valued using the first-in, first-out method. In all funds, the District follows the consumption method, thus, materials and supplies to be used in operations are reported as financial resources when acquired and recognized as expenditures when used. In the fund financial statements, the inventory amount is equally offset by a fund balance reservation indicating it is not an "available spendable resource".

PREPAID ITEMS

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. Prepaid items are equally offset by a fund balance reservation indicating they are not "available spendable resources".

CAPITAL ASSETS

Capital assets, which include property, plant and equipment, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. If purchased or constructed, all capital assets are recorded at historical cost or estimated historical cost and updated for additions and retirements during the year. Donated capital assets are valued at their estimated fair value as of the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Capital assets are being depreciated using the straight-line method over the following estimated useful lives:

| Capital Assets | <u>Years</u> |
|-------------------------|--------------|
| | |
| Buildings | 50 |
| Building Improvements | 20 |
| Land Improvements | 20 |
| Vehicles | 5 |
| Heavy Trucks and Vans | 7-10 |
| Buses | 10 |
| Computer Hardware | 5 |
| Various Other Equipment | 5-25 |

ACCRUED SALARIES AND BENEFITS

District salaries earned but not paid by June 30, 2009, have been accrued as liabilities and shown as expenses for the current year.

LONG-TERM OBLIGATIONS

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs and deferred losses, are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount and any deferred losses on refundings. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt. Deferred losses related to refundings of debt are reported as a deferred charge component of bonds payable and are amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

COMPENSATED ABSENCES AND ACCUMULATED SICK LEAVE

Except for teachers and certain hourly employees, it is the District's policy to permit employees to accumulate earned but unused vacation leave. All employee groups are allowed to accumulate earned but unused sick leave. However, the District only pays limited accumulated sick leave to certain employees upon retirement.

With no material liability for sick leave, nothing is recorded in the accompanying financial statements. All vacation pay is accrued when incurred in the government-wide and proprietary financial statements. A liability for these amounts is reported in governmental funds only if they have matured as a result of employee resignations and retirements.

FUND BALANCES

In the fund financial statements, reservations of fund balance represent amounts that are not subject to appropriation or are legally segregated for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

NET ASSETS

In the government-wide statements, Net Assets on the Statement of Net Assets includes the following:

Invested in Capital Assets, net of Related Debt

This is the component of net assets that reports the difference between capital assets less both the accumulated depreciation and the outstanding balance of debt, excluding unexpended proceeds, that is directly attributable to the acquisition, construction or improvement of those assets.

Restricted Net Assets

The component of net assets that reports the constraints placed on the use of assets by either external parties and / or enabling legislation. Currently, the District restricts assets related to its Debt Service Fund, assets related to its Capital Projects Funds, self-insurance deposits related to the District's worker's compensation program accounted for in the Insurance and Risk Management Fund and term endowments to Vegas PBS.

Unrestricted

The component of net assets that is the difference between the assets and liabilities not reported in Invested in Capital Assets, Net of Related Debt and Restricted Assets.

It is the District's policy to expend restricted resources first and use unrestricted resources when the restricted resources have been depleted.

EARLY RETIREMENT BENEFITS

District Regulation 4370 provides a voluntary early retirement incentive program to all employees with an effective retirement date no later than December 31 of each year. If an employee retires with 15 to 29 years of service, has more than 110 days of unused sick leave, and receives pension benefits within 36 months from the last day of employment, the District will contribute toward certain benefits. These benefits are either of the following options:

- A District contribution toward the purchase of retirement service credit in the Nevada Public Employees Retirement System, or
- 2. District payment of health insurance premiums until the value of the benefit is used. The amount of the early retirement benefit is expended annually from available resources.

The Board suspended this policy on December 11, 2008, but allowed employees who had already submitted time to receive benefit for the current fiscal year.

As noted in the previous section on compensated absences and accumulated sick leave, the amount of the liability relating to these benefits is not material.

Former District employees, who are receiving a pension benefit, are entitled to purchase health insurance as part of the District group policy.

COMPARATIVE TOTAL DATA AND RECLASSIFICATIONS

The District follows the data classification guidelines provided in the Financial Accounting Handbook from the Nevada Department of Education, in conjunction with the U. S. Department of Education publication *Financial Accounting for Local and State School Systems*. Comparative total data for the prior year has been presented in the accompanying fund financial statements to provide an understanding of changes in the District's financial position and results of operations.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

USE OF ESTIMATES

The preparation of financial statements in conformity with United States generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from these estimates.

REVENUE LINE ITEM TITLES

<u>Local sources</u> are monies generated from local school support (sales tax), ad valorem (property taxes), real estate transfer taxes, room tax, governmental services tax, franchise tax, investment income, and athletic proceeds.

State sources are revenues paid by the State of Nevada to the District.

Federal sources are grants received from the federal government mostly for specific educational programs.

Other sources are monies including proceeds from the sale of fixed assets and other miscellaneous income.

EXPENDITURE LINE ITEM TITLES

The statements of revenues, expenditures, and changes in fund balances characterize expenditure data by major program classifications pursuant to the provisions of the Handbook II (Revised) Accounting System established by the Nevada Department of Education. Programs are further segregated by functional services provided within each program. Below is a brief description of these program and function classifications.

Programs:

<u>Regular programs</u> are activities designed to provide elementary and secondary students with learning experiences to prepare them as citizens, family members, and non-vocational workers.

<u>Special programs</u> are activities designed primarily to serve students having special needs. Special programs include services for the gifted and talented, mentally challenged, physically handicapped, emotionally disturbed, culturally different, learning disabled, bilingual, and special programs for other types of students at all levels.

<u>Vocational programs</u> are learning experiences that will provide individuals with the opportunity to develop the necessary knowledge, skills, and attitudes needed for occupational employment.

<u>Other instructional programs</u> are activities that provide elementary and secondary students with learning experiences in school-sponsored activities, athletics, and summer school.

<u>Adult education programs</u> are learning experiences designed to develop knowledge and skills to meet intermediate and long-range educational objectives for adults, who having completed or interrupted formal schooling, have accepted adult roles and responsibilities.

<u>Vocational support programs</u> are activities associated with the supervision and administration of vocational education programs.

<u>Undistributed expenditures</u> are charges not readily assignable to a specific program. Student and instructional staff support and overall general and administrative costs are classified as undistributed expenditures. Also included are costs of operating, maintaining, and constructing the physical facilities of the District.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Functions:

<u>Instruction</u> includes all activities dealing directly with the interaction between teachers and students, including the activities of aides or classroom assistants which assist in the instructional process.

<u>Student support</u> includes activities designed to assess and improve the well-being of students and to supplement the teaching process.

<u>Instructional staff support</u> includes activities associated with assisting the instructional staff with the content and process of providing learning experiences for students.

<u>General administration</u> includes activities concerned with establishing and administering policy in connection with operating the District.

<u>School administration</u> includes activities concerned with overall administrative responsibility for a school. This includes principals, assistants and clerical staff involved in the supervision of operations at a school.

<u>Central Services</u> includes activities that support other administrative and instructional functions. In addition, this covers activities concerned with paying, transporting, exchanging and maintaining goods and services for the District. Also included are the fiscal and internal services necessary for operating the District.

<u>Operation and maintenance of plant services</u> includes activities concerned with keeping the physical schools and associated administrative buildings open, comfortable, and safe for use. This also includes keeping the grounds, buildings and equipment in effective working condition and state of repair. Additional activities include maintaining safety in buildings, on the grounds, and in the vicinity of schools.

<u>Student transportation</u> includes activities concerned with the conveyance of students to and from school, as provided by state and federal law. It includes trips between home and school as well as trips to school activities.

Other support services are all other support services not otherwise properly classified elsewhere.

<u>Facilities acquisition and construction services</u> are all activities concerned with the acquisition of land and buildings; the construction of buildings and additions to buildings; initial installation or extension of service systems and other built-in equipment and improvements to sites.

<u>Food service</u> includes activities concerned with providing food to students and staff within the District. This includes the preparation and serving of regular and incidental meals, lunches, or snacks.

NOTE 2 - RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

Explanation of certain differences between the governmental funds balance sheet and the government-wide statement of net assets

The governmental funds balance sheet includes a reconciliation between fund balances – total governmental funds and net assets – governmental activities as reported in the government-wide statement of net assets. One element of that reconciliation explains that "Certain liabilities are not reported in the governmental funds financial statement because they are not due and payable, but they are presented as liabilities in the statement of net assets." The details of this \$4,907,709,891 difference are as follows:

| Bonds payable | \$ 4,670,965,000 |
|--|---------------------|
| Less: Deferred charges on issuance costs (net of amortization) | (16,993,611) |
| Less: Deferred losses on refundings (net of amortization) | (119,860,772) |
| Bond premiums | 287,602,741 |
| Interest payable | 9,596,034 |
| Annual required contribution | 22,234,123 |
| Compensated absences | 54,166,376 |
| Net adjustment to reduce fund balance - total governmental funds | |
| to arrive at net assets - governmental activities | \$ 4,907,709,891 |

2. Explanation of certain differences between the governmental funds statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities

The governmental funds statement of revenues, expenditures, and changes in fund balances includes reconciliation between net changes in fund balances – total governmental funds and changes in net assets of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that "Capital outlays to purchase or build capital assets are reported in the governmental funds as expenditures. However, for governmental activities those costs are shown in the statement of net assets and allocated over their estimated useful lives as annual depreciation expenses in the statement of activities." The details of this \$273,479,552 difference are as follows:

| Capital outlay | \$ 495,429,721 |
|--|-------------------|
| Depreciation expense | (221,950,169) |
| | |
| Net adjustment to increase net changes in fund balances - total governmental | |
| funds to arrive at changes in net assets of governmental activities. | \$ 273,479,552 |

Another element of that reconciliation states that "The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.

NOTE 2 - RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (continued)

This amount is the net effect of these differences in the treatment of long-term debt and related items." The details of this \$361,045,649 difference are as follows:

| Debt issued or incurred: | |
|--|---------------------|
| Issuance of general obligation debt | \$ (129,210,000) |
| Plus: Bond premiums | (4,015,358) |
| Less: Bond issuance costs | 201,148 |
| General obligation debt principal payments | 361,360,000 |
| Payment to escrow agent for refunding | 132,709,859 |
| Net adjustment to increase net changes in fund balances - total governmental | |
| funds to arrive at changes in net assets of governmental activities. | \$ 361,045,649 |

Another element of that reconciliation states that "Generally expenditures recognized in the fund financial statements are limited to only those that use current financial resources, but expenses are recognized in the statement of activities when incurred." The details of this \$2,204 difference are as follows:

| Change in accrued interest | \$ 2,006,500 |
|--|-----------------|
| Amortization of deferred charge on refunding | (11,570,820) |
| Amortization of issuance costs | (1,394,798) |
| Amortization of bond discounts | (1,006,336) |
| Amortization of bond premiums | 23,545,470 |
| Change in compensated absences | (1,953,391) |
| Capital assets transfers | (1,625,334) |
| OPEB obligation | (8,003,495) |
| Net adjustment to decrease net changes in fund balances - total governmental | |
| funds to arrive at changes in net assets of governmental activities. | \$ (2,204) |

NOTE 3 - DEPOSITS AND INVESTMENTS

The District maintains a cash and investment pool that is available for use by all funds. At June 30, 2009, this pool is displayed in the statement of net assets and major and other governmental funds on the governmental funds balance sheet as "Pooled Cash and Investments." The District accounts for its debt issuance proceeds portfolio separately in the capital projects funds to aid in compliance with bond covenants and federal arbitrage regulations. **See Note 8**. As of June 30, 2009, the District had the total amounts reported as pooled cash and investments:

Combined Pooled Cash and Investments

| Pooled Cash | \$ (96,673) |
|---------------------------------------|---------------------|
| Non-negotiable Certificate of Deposit | 6,260,000 |
| Student Activity Agency Fund | 18,866,714 |
| Pooled Investments | 2,059,641,719 |
| | |
| Total Pooled Cash and Investments | \$ 2,084,671,760 |

NOTE 3 - DEPOSITS AND INVESTMENTS (continued)

Except for financial reporting purposes, the cash balances in the Student Activity Agency Fund are not normally considered part of the District's pooled cash and investments. These amounts represent cash held in an agency capacity by the District for student groups and organizations and cannot be used in the District's normal operations. The balances listed above for this fund are a consolidation of individual bank account balances held at schools across the District as of June 30, 2009.

As of June 30, 2009 the District had the following investments (numbers stated in thousands):

| | | | Inve | str | ment Matu | | | | | | | | | |
|-----------------------------------|----|-----------|-----------------|-----|-----------|----|-------|----|---------|------|----------|----|-----------|--|
| | | Fair | Less | | | | | | More | | Interest | | Total | |
| General Pooled Investments: | | Value | Than 1 | | 1-5 | | 6-10 | | than 10 | Rec. | | | Value | |
| U.S. Treasury Notes | \$ | 101,197 | \$ 30,575 | \$ | 70,622 | \$ | - | \$ | - | \$ | 659 | \$ | 101,856 | |
| U.S. Agencies | | 872,677 | 499,997 | | 372,680 | | - | | - | | 3,164 | | 875,841 | |
| Commercial Paper | | 170,500 | 170,500 | | - | | - | | - | | - | | 170,500 | |
| Money Market Mutual Fund | | 71,500 | 71,500 | | - | | - | | - | | 26 | | 71,526 | |
| Vegas PBS Endowment | | 1,350 | 1,350 | | - | | - | | - | | - | | 1,350 | |
| NVEST Program: | | | | | | | | | | | | | | |
| U.S. Treasury Bills/Notes | | 18,276 | 4,470 | | 13,806 | | - | | - | | 93 | | 18,369 | |
| U.S. Agencies | | 46,520 | 16,706 | | 29,700 | | 114 | | - | | 350 | | 46,870 | |

Interest rate risk

While the District does not have an overall investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from interest rate risk, Nevada statutes and District policy do impose certain restrictions by investment instrument. These include limiting maturities on U.S. Treasuries and Agencies to less than 10 years, limiting bankers' acceptances to 180 days maturity, limiting commercial paper to 270 days maturity, and repurchase agreements to 90 days. The District's approximate weighted average maturity is slightly longer than one year.

U.S. Agencies as reported above consist of securities issued by the Federal National Mortgage Association, Federal Home Loan Mortgage Association, Federal Farm Credit Banks, and Federal Home Loans Bank. Since investments in these agencies are in several cases backed by assets such as mortgages they are subject to prepayment risk. Also, approximately \$338 million of the U.S. Agencies investments reported above have a call option, which should interest rates change, could shorten the maturity of these investments.

Credit Risk

State statute and the District's own investment policy limit investment instruments to the top rating issued by nationally recognized statistical rating organizations (NSROs). The District's investment in commercial paper is limited to that rated P-1 by Moody's Investor Service, Standard and Poor's as A-1, and Fitch Investors Service as F-1. The District's money market investments are only with those funds rated by a nationally recognized rating service as AAA or its equivalent and invest only in securities issued by the Federal Government, U.S. Agencies, or repurchase agreements fully collateralized by

NOTE 3 - DEPOSITS AND INVESTMENTS (continued)

such securities. Credit ratings for obligations of U.S. government agencies only implicitly guaranteed by the U.S. Government, such as, the Federal National Mortgage Association, the Federal Farm Credit Bank, the Federal Home Loan Bank, and the Federal Home Loan Mortgage Corporation, short and long term instruments are limited to those rated A-1 / AAA, P-1 / Aaa or F1 / AAA, by Moody's, Standard and Poor's and Fitch Investors Service, respectively. The investment program through the State of Nevada, NVEST, is not rated by any investment service.

Vegas PBS received an initial term endowment in fiscal year 2003-2004 and has in each subsequent fiscal year, including the current year. The endowment is invested in various equity mutual funds with the Nevada Community Foundation. While the District's investment policy does not allow it to directly invest in equities, endowment principal is restricted from use for a period of time. **See Note 17**.

Concentrations of Credit Risk

To limit exposure to concentrations of credit risk, the District's investment policy limits investment in bankers' acceptance notes to 15%, repurchase agreements to 25%, commercial paper to 15%, money market mutual funds to 25%, of the entire portfolio on the day of purchase. As of June 30, 2009, more than 5% of the District's investments are in Federal Farm Credit Banks, Federal Home Loan Bank, Federal Home Loan Mortgage Corporation, Federal National Mortgage Association, MetLife commercial paper, and Fidelity Government Money Market Fund. These investments are 11%, 35%, 12%, 17%, 8% and 6%, respectively, of the District's total investments.

NOTE 4 - INTERFUND BALANCES AND TRANSFERS

Interfund Transfers:

In the fund financial statements, interfund transfers are shown as other financing sources or uses. Transfers between funds during the year ended June 30, 2009 are as follows:

| _ | Transfers In | | | | | | | | | | | |
|-----------------------------|--------------|------------------------|----|-------------|----|----------------------------------|----|-------------|--|--|--|--|
| Transfers Out | Spe | cial Education Fund | D | ebt Service | | Nonmajor overnmental Funds | | Totals | | | | |
| General Fund | \$ | 255,162,138 | \$ | - | \$ | 3,181,037 | \$ | 258,343,175 | | | | |
| Bond Fund | | - | | 81,233,060 | | - | | 81,233,060 | | | | |
| Nonmajor Governmental Funds | | | | | | 976,250 | | 976,250 | | | | |
| Total | \$ | 255,162,138 | \$ | 81,233,060 | \$ | 4,157,287 | \$ | 340,552,485 | | | | |

Following are explanations of certain interfund transfers of significance to the District:

\$255,162,138 was transferred from the General Fund to the Special Education Fund for costs related to programs for special needs students. Beginning in 1994, Senate Bill 569 has required separate accounting for revenues and expenditures associated with special education. The majority of the revenues are collected in the General Fund and transferred to the Special Education Fund to offset special education expenditures.

The Bond Fund transferred a total of \$81,233,060 during fiscal year 2009 to the Debt Service Fund to service the current principal and interest on the District's revenue bonds. Pledged revenues for these bonds, which include a portion of the real estate transfer tax and room tax collected within the county are deposited within the Bond Fund and transferred on a monthly basis to the Debt Service Fund. **See Note 8.**

NOTE 4 - INTERFUND BALANCES AND TRANSFERS (continued)

In the nonmajor governmental funds, the Vegas PBS Fund transferred \$976,250 to the Building and Sites Fund for reimbursement of building costs. In addition to this, funds were transferred from the General Fund to the Class Size Reduction Fund in the amount of \$463,932 to cover additional expenditures associated with state mandated class size legislation.

NOTE 5 - CAPITAL ASSETS

A summary of changes in capital assets for the year ended June 30, 2009 follows:

Governmental Activities

| | Balance | | | Balance |
|---|---------------------|---------------------|---------------------|---------------------|
| | June 30, 2008 | Additions | Deletions | June 30, 2009 |

NOTE 7 - DEFERRED REVENUES

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period and also in connection with resources that have been received but not yet earned. A summary of deferred revenues for the individual major governmental funds and nonmajor governmental funds in the aggregate at June 30, 2009 follows:

| | General Fund | | De | ebt Service Fund | nmajor and ther Funds | Total |
|-----------------------------|--------------|------------|----|---------------------|--------------------------|------------------|
| Property Taxes | \$ | 15,547,922 | \$ | 11,824,863 | \$ - | \$ 27,372,785 |
| Summer School | | 1,283,700 | | - | - | 1,283,700 |
| Federal Programs | | - | | - | 6,380,204 | 6,380,204 |
| State Grants and Allotments | | - | | - | 4,088,379 | 4,088,379 |
| Mining Taxes | | 32,317 | | 23,845 | - | 56,162 |
| E-Rate | | 1,894,331 | | - | - | 1,894,331 |
| Miscellaneous | | 538,860 | | | 2,030,075 | 2,568,935 |
| Total | \$ | 19,297,130 | \$ | 11,848,708 | \$ 12,498,658 | \$ 43,644,496 |

NOTE 7 - DEFERRED REVENUES (continued)

In the General Fund, deferred property tax revenue consists of property taxes receivable at year-end, but not collected within sixty days after year-end. Summer school deferred revenue represents monies collected for summer school tuition in advance of the fiscal year 2010 summer school program. The e-rate deferral represents amounts submitted under the e-rate program, but not yet received. The miscellaneous deferred revenues consist of \$208,900 for extended day kindergarten tuition which was received in advance, \$185,105 in revenues received in advance for facility usage, \$137,500 for deferred textbook orders, and \$7,355 for unearned tuition revenue.

In the Debt Service Fund, deferred revenue relates to property taxes receivable at year-end but not collected within sixty days after year-end.

Nonmajor and other funds deferred revenue consists of grant revenues in the Federal Projects Fund received in advance of expenditures. The miscellaneous deferred revenue consists of \$2,030,075 in monies received by Vegas PBS for advanced payments on advertising.

NOTE 8 - GENERAL OBLIGATION BONDS PAYABLE

General Obligation Bonds:

The District issues general obligation bonds to provide proceeds for the District's construction and modernization program and for other major capital acquisitions. These bonds are direct obligations and pledge the full faith and credit of the District. Bonds are often sold at a premium or a discount. These premiums and discounts, along with the respective issue costs are reported in the fund statements in the year incurred but are deferred and amortized over the life of the debt in the government-wide financial statements. Similarly, any gain or loss derived from an advance refunding is amortized in the government-wide financial statements. The Debt Service Fund and the General Fund services all of the bonds payable. The remaining principal and interest payment requirements for the general obligation debt as of June 30, 2009 are as follows:

General Obligation Bonds Schedule:

| | | Date | Date of Final | | Original | Balance | Principal Due Within | Interest Due Within |
|----------|--------------------|----------|------------------|---------------|-------------------|---------------------|-------------------------|------------------------|
| Series | Purpose | Issued | Maturity | Interest | Issue | June 30, 2009 | One Year | One Year |

| | . | | | | · | \$ 3,751,065,000 | \$ 378,180,000 | \$ 183,822,800 |

NOTE 8 - GENERAL OBLIGATION BONDS PAYABLE (continued)

General Obligation Revenue Bonds:

The District also issues general obligation debt that is additionally secured by a pledge of proceeds of taxes deposited in the District's Bond Fund. Pursuant to applicable Nevada laws the District receives the proceeds of a 1 5/8% room tax collected within Clark County in the Bond Fund. The proceeds of a tax equivalent to 60 cents for each \$500 of value on transferred real property are also deposited by the county. The District pledges the room tax and the real property transfer tax revenues to pay debt service on certain general obligation debt. The remaining principal and interest payment requirements for the general obligation debt additionally secured by these pledged revenues as of June 30, 2009 are as follows:

General Obligation Revenue Bonds Schedule:

| Series | Purpose | Date Issued | Date of Final Maturity | Interest | Original Issue | Balance June 30, 2009 | Principal Due Within One Year | Interest Due Within One Year |

| 2007 B | Building | 12/11/07 | 06/15/27 | 5.00% | 250,000,000 | 250,000,000 | 9,615,000 | 12,500,000 |
| | | | | | | | | |
| | | | | | | \$ 919,900,000 | \$ 50,120,000 | \$ 38,994,552 |

In March of 2001, the District issued \$100,000,000 of series 2001A general obligation building bonds and \$100,000,000 of series 2001B general obligation building bonds, both of which bear interest at a variable rate. Pursuant to the bond resolution, these bonds have their interest rate determined on a daily basis. This daily rate is determined by the opinion of the respective remarketing agent, under then existing market conditions, that would result in the sale of the bonds at a price equal to the principal amount, thereof, plus interest, if any, accrued through the current date.

The interest requirements for variable-rate debt are computed using the rate effective at year-end. As of June 30, 2009, the rates used to determine interest requirements for the 2001A and 2001B series were 0.28% and 0.30%, respectively.

General obligation bonds payable is reported net of premiums and discounts on the statement of net assets.

Summary of Debt Service:

Following are the annual requirements to amortize all general obligation bonds outstanding at year-end:

| Fiscal Year | Principal | | Interest | | Total Requirements | |
|-------------|---------------------|----|---------------|----|--------------------|--|
| 2010 | \$ 428,300,000 | \$ | 222,817,352 | \$ | 651,117,352 | |
| 2011 | 365,550,000 | | 203,005,546 | | 568,555,546 | |
| 2012 | 316,210,000 | | 184,901,262 | | 501,111,262 | |
| 2013 | 331,360,000 | | 169,295,848 | | 500,655,848 | |
| 2014 | 347,010,000 | | 152,858,352 | | 499,868,352 | |
| 2015 - 19 | 1,553,275,000 | | 520,695,177 | | 2,073,970,177 | |
| 2020 - 24 | 896,645,000 | | 218,058,903 | | 1,114,703,903 | |
| 2025 - 28 | 432,615,000 | | 41,459,650 | | 474,074,650 | |
| Totals | \$ 4,670,965,000 | \$ | 1,713,092,090 | \$ | 6,384,057,090 | |
| | | | | | | |

Comprehensive Annual Financial Report ■

NOTE 8 - GENERAL OBLIGATION BONDS PAYABLE (continued)

A statutory limit of bonded indebtedness for school districts is set forth in Chapter 387.400 of the Nevada Revised Statutes. The limitation is based on 15 percent of the assessed valuation of property within the District, excluding motor vehicles. Based on the 2009 assessed valuation of \$115,790,200,550 the applicable debt limit is \$17,368,530,083 leaving the legal debt margin at \$12,697,565,083, notwithstanding the statutory tax rate limitation explained in **Note 1**. The District is in compliance with Chapter 387.400 as of June 30, 2009.

Authorized Unissued Debt:

In 1998, the District received both legislative and voter approval to issue a projected \$3.2 billion in long-term debt for school construction and modernization. The election authorized the District to issue general obligation bonds for school construction until June 30, 2008. As the authority to issue debt under this program has ended, the District will rely on pay-as-you-go financing to fund any capital requirements until the Board obtains voter approval to fund a future capital program. As of June 30, 2009 there is no reportable authorized unissued debt.

Refunded Debt:

In 2009, the District issued \$129,210,000 of general obligation (limited tax) refunding bonds. This action was taken to achieve interest savings as well as to maintain the current levy for future bond issuance. As a result, the refunded bonds are considered to be defeased and the liability has been removed from the governmental activities column of the statement of net assets. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the District's financial statements. With this refunding of bonds originally issued in 1999 and 2003, the district was able to reduce the cost of future debt service by approximately \$17.7 million, which equates to a net present value savings of 8.119 percent and an economic gain of \$10,491,078.

Defeasement of Debt:

The District has defeased certain general obligation bonds by placing the proceeds of new bonds into irrevocable trust accounts to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the District's financial statements. At June 30, 2009, the outstanding principal on the following bonds is considered defeased:

| CCSD School Improvement & Building Bonds | De | feased Principal |
|--|----|------------------|
| Series 2000A: Dated March 1, 2000 | \$ | 95,035,000 |
| Series 2001F: Dated October 1, 2001 | | 210,980,000 |
| Series 2002C: Dated June 1, 2002 | | 308,805,000 |
| Series 2003D: Dated November 1, 2003 | | 222,590,000 |
| Series 2004D: Dated November 1, 2004 | | 161,410,000 |
| Series 2005C: Dated November 15, 2005 | | 151,670,000 |
| Total | \$ | 1,150,490,000 |
| | | |

Obligation for Arbitrage Payable:

The Tax Reform Act of 1986 established arbitrage guidelines that require a rebate of interest earned on bond funds in excess of interest paid. At June 30, 2009, the District is currently reporting negative arbitrage and thus no rebate of interest is required.

Debt Service Reserve Fund:

Nevada Revised Statute 350.020 requires that the Board establish a reserve account within its debt service fund for payment of the outstanding bonds of the District. Currently, the account must be established and maintained in an amount at least equal to the lesser of the amount of principal and interest payments due on all of the outstanding bonds of the District in the next fiscal year or 10% of the outstanding principal amount of the outstanding bonds of the District. The amounts on deposit in the reserve account are not directly pledged to pay debt service on the debt, and if permitted, may be used for other purposes. As of June 30, 2009 the amount required to fund the reserve account was \$467,096,500; which was fully funded by the District.

NOTE 9 - LEASES

Operating Leases

Lessee

The District leases building and other office facilities under non-cancelable operating leases. Total costs for such leases were \$906,912 for the fiscal year ended June 30, 2009. The District leases property through yearly contracts and decides at year-end whether to renew outstanding leases.

The District also leases a fiber optical wide-area network under a non-cancelable operating lease. Total costs for this lease were \$3,337,187 for the year ending June 30, 2009. The future minimum lease payments for this lease are as follows:

| Year Ending, June 30 | Amount |
|----------------------|------------------|
| 2010 | \$ 3,097,500 |
| 2011 | 3,097,500 |
| 2012 | 3,097,500 |
| 2013 | 3,097,500 |
| Total | \$ 12,390,000 |

Lessor

Vegas PBS entered into a lease agreement with Sprint Nextel, Inc. whereby Sprint Nextel leases available spectrum from Vegas PBS for commercial use. The term for this cancelable operating lease agreement is fifteen years with the automatic renewal for an additional fifteen years for a maximum of thirty years. The spectrum lease from the District is an intangible asset to the District which carries no value on the financial statements. The revenue recognized for this period is \$6,976,250 which includes a monthly fee paid to the District by Sprint Nextel.

NOTE 10 - CHANGES IN LONG-TERM LIABILITIES

Long-term liability activity for the year-ended June 30, 2009, was as follows:

| | | | E | nding Balances | | Due Within |
|-------------------|---|-------------------|---|---|--|---|
| Additions | Reductions | | June 30, 2009 | | One Year | |
| | | | | | | |
| | | | | | | |
| \$ 129,210,000 | \$ | (440,500,001) | \$ | 3,751,065,000 | \$ | 378,180,000 |
| | | | | | | |

| 118,405,500 | | (490,218,315) | | 4,838,706,969 | | 428,300,000 |
| 27,294,342 | | (25,332,925) | | 54,483,636 | | 25,326,309 |
| | | | | | | |
| \$ 145,699,842 | \$ | (515,551,240) | \$ | 4,893,190,605 | \$ | 453,626,309 |
| | | | | | | |
| | | | | | | |
| \$ 486,133 | \$ | (543,855) | \$ | 1,040,847 | \$ | 543,855 |
| \$ | \$ 129,210,000 - (14,819,858) 4,015,358 118,405,500 27,294,342 \$ 145,699,842 | \$ 129,210,000 \$ | \$ 129,210,000 \$ (440,500,001) - (38,750,000) - 1,006,336 (14,819,858) 11,570,820 4,015,358 (23,545,470) 118,405,500 (490,218,315) 27,294,342 (25,332,925) \$ 145,699,842 \$ (515,551,240) | \$ 129,210,000 \$ (440,500,001) \$ - (38,750,000) - 1,006,336 (14,819,858) 11,570,820 4,015,358 (23,545,470) 118,405,500 (490,218,315) 27,294,342 (25,332,925) \$ 145,699,842 \$ (515,551,240) \$ | \$ 129,210,000 \$ (440,500,001) \$ 3,751,065,000 - (38,750,000) 919,900,000 - 1,006,336 - (14,819,858) 11,570,820 (119,860,772) 4,015,358 (23,545,470) 287,602,741 118,405,500 (490,218,315) 4,838,706,969 27,294,342 (25,332,925) 54,483,636 \$ 145,699,842 \$ (515,551,240) \$ 4,893,190,605 | \$ 129,210,000 \$ (440,500,001) \$ 3,751,065,000 \$ - (38,750,000) 919,900,000 - 1,006,336 - (14,819,858) 11,570,820 (119,860,772) 4,015,358 (23,545,470) 287,602,741 118,405,500 (490,218,315) 4,838,706,969 27,294,342 (25,332,925) 54,483,636 \$ 145,699,842 \$ (515,551,240) \$ 4,893,190,605 \$ |

Internal service funds predominantly serve the governmental funds. Accordingly, their long-term liabilities are included as part of the above totals for governmental activities. At year end \$317,257 of internal service funds compensated absences are included in the above amounts. In governmental activities, compensated absences are generally liquidated by a combination of the major and nonmajor governmental funds with the majority liquidated from the General Fund.

Comprehensive Annual Financial Report

NOTE 11 - COMPLIANCE AND ACCOUNTABILITY

Per NRS 354.626, the District is required to report and explain expenditures that exceeded budgeted appropriations at the function level for the General Fund, Special Revenue and Capital Project Funds. The sum of operating and non-operating expenses in the Enterprise and Internal Service Funds may not exceed total appropriations. As of June 30, 2009, the District reported the following expenditures over appropriations:

The District's Building and Sites Fund total expenditures exceeded appropriations by \$10,859,622 due to cost increases in administrative buildings under construction, including the Vegas PBS building.

NOTE 12 - DEFINED BENEFIT PENSION PLAN

All half-time or greater District employees are covered by the State of Nevada Public Employees Retirement System (the Plan), a cost sharing multiple-employer defined benefit plan of the public employee retirement system. The payroll for employees covered by the Plan for the year ended June 30, 2009 was \$1,446,554,562 and the District's total payroll was \$1,563,023,049. All full-time District employees are mandated by state law to participate in the Plan. A member of the system is eligible to retire at 65 with five years of service, at 60 with 10 years, and at any age with 30 years. Vested members are entitled to a lifetime monthly retirement benefit equal to 2.5 percent times the member's years of service prior to July 1, 2001 and 2.67 percent after, to a maximum of 30 years, times an average compensation. The member's beginning retirement compensation is the average of their highest working compensation for 36 consecutive months. Benefits fully vest with 5 years of service. The Plan also provides death and disability benefits. Benefits are established by state statute and provisions may only be amended through legislation.

All District employees in the plan are enrolled under a non-contributory plan. District payment of what were formerly employee contributions, was made in lieu of equivalent salary increases. Per Chapter 286 of the Nevada Revised Statutes, the District's contribution was based on the actuarially determined statutory rate of 20.50 percent in 2008-09 for unified, licensed and support employees and 33.50 percent for police employees of gross compensation and amounted to \$297,422,791, 22.8% of the \$1,306,715,537 total paid by all employees and employers into the Plan for the year ended June 30, 2009. The District's contributions to PERS for the years ended June 30, 2008, 2007 and 2006 were \$283,026,155, \$252,876,420, and \$224,826,060, respectively, equal to the required contributions for each year, at the actuarially determined statutory rates of 20.50, 19.75, and 19.75 percent, respectively, for unified, licensed and support employees and 33.50, 32.00, and 32.00 percent, respectively, for police employees.

During fiscal year 2009, \$3,789,260 was paid by the District for PERS credit on behalf of early retirees. See Note 1.

Financial statements for the Plan are available by calling (775) 687-4200 or writing to:

Public Employees' Retirement System of Nevada 693 W. Nye Lane Carson City, NV 89703-1599

NOTE 13 - RISK MANAGEMENT

<u>Risk Management</u> The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and injuries to employees. The District accounts for such losses through its Insurance and Risk Management Internal Service Fund. The District retains the risk of financial loss per occurrence as follows:

- Worker's compensation up to \$1,000,000.
- 2. General liability and motor vehicle liability, with retention of \$5,000,000.
- 3. Errors and omissions and employment practices liability, with retention of \$3,000,000 per occurrence.

NOTE 13 - RISK MANAGEMENT (continued)

- 4. Property, including boiler and machinery, with retention of \$100,000 except for flood Zone A with retention of \$500.000.
- 5. Broadcasters liability, with retention of \$5,000.
- 6. Crime / employee dishonesty, with retention of \$50,000.
- 7. Catastrophic medical and cash benefit insurance for athletic and extracurricular activities injuries, with a deductible of \$25,000 or injured student's medical insurance protection, whichever is greater.
- 8. Foreign liability insurance, with no retention.

The District purchases commercial insurance for occurrences in excess of the foregoing retention levels. Over the past 5 years there have been significant reductions in almost all areas of insurance coverage for the District. However, the District remains adequately covered for losses and no settlements have reached amounts in excess of the insurance coverage for the past 8 years.

The Insurance and Risk Management Internal Service Fund insures all operational activities of the District by charging premiums to other funds of the District. Premiums charged are based on estimates of the amounts needed to pay actual and projected claims, to support self-insurance operational costs, and to establish a self-insured reserve for incurred losses. The reserve was \$32,305,714 at June 30, 2009, and is reported as net assets for Risk Management. The estimates of the liability insurance claims payable of \$5,705,824 and the worker's compensation claims payable of \$12,012,994 at June 30, 2009, were determined by the District with the assistance of an independent actuarial study as of that date and are reflected in the financial statements of the Insurance and Risk Management Internal Service Fund.

The actuarial study, which is prepared annually, calculates the estimated future losses for the District. The amount reflected represents the current amount due in fiscal year 2009-2010.

The District relies upon a statistical measure known as a confidence level to determine its estimated outstanding losses as calculated by the study. Estimated losses are recorded at their expected values, which correspond to an approximate 50% - 55% confidence level. Information regarding actual claims expenses incurred and paid can be seen in the table below.

A summary of changes in the aggregate claims liabilities for the past two years follows:

| | Fiscal 2009 | | -iscai 2008 |
|--|------------------|----|-------------|
| Beginning Balance - July 1, 2009 and 2008 | \$ 18,495,136 | \$ | 16,114,493 |
| Claims Incurred | 10,761,000 | | 10,172,253 |
| Changes in Estimates for Claims of the Prior Periods | (5,350,382) | | (1,315,252) |
| Claims Paid | (6,186,936) | | (6,476,358) |
| Ending Balance - June 30, 2009 and 2008 | \$ 17,718,818 | \$ | 18,495,136 |

In November 2008, the District renewed its interest-bearing time certificate of deposit used for the self-insured workers' compensation program as a security deposit with the Nevada Division of Insurance. The amount of the deposit, \$6,260,000 is based on the total incurred cost of current and future claims as estimated by the office of the State Insurance Commissioner. **See Note 3**.

NOTE 14 - COMMITMENTS AND CONTINGENCIES

Construction Commitments

As of June 30, 2009, the District was operating the current 1998 voter-approved bond program. The following schedule outlines the amount of outstanding construction contracts encumbered by category (see following page).

NOTE 14 - COMMITMENTS AND CONTINGENCIES (continued)

| | | | 1998 | | |
|---------------------------|---------------|----|--------------|--|--|
| | | В | Bond Program | | |
| Building Category: | | | _ | | |
| Elementary | | \$ | 32,214,297 | | |
| Secondary | | | 88,251,121 | | |
| Administrative and Other | | | 16,259,315 | | |
| | Total Program | \$ | 136,724,733 | | |

The total amount of \$136,724,733 in construction contracts outstanding is shown as a designation for encumbrances in the Bond Fund, a major fund of the District. **See Note 1**.

Legal Contingencies

The District is a defendant in various legal actions. The financial impact of these actions is not determinable; however, it is the opinion of District legal counsel and management that none of these actions would have a material impact on the District's financial condition.

NOTE 15 - DESIGNATIONS OF GENERAL FUND UNRESERVED FUND BALANCE

The District reports designations of unreserved fund balance which represent management's intended use of resources available to the District. The following are explanations of the reported designations of fund balance in the General Fund:

- School Carryover District schools are allowed to carryover into the next year a small apportionment of their unspent budgets from the current fiscal/school year.
- Potential Revenue Shortfall to designate funds to cover potential loss of revenue resulting from the challenging economic climate and potential budget cuts administered by the State of Nevada.
- ESEA Employee Group Insurance Reserve to designate the reserve between support staff employee group insurance expenditures and negotiated funding by the District plus employee contributions.
- Categorical Indirect Cost to designate funds associated with indirect costs from federal programs.

NOTE 16 - POST EMPLOYMENT HEALTHCARE PLAN

Plan Description. The District subsidizes eligible retirees' contributions to the Public Employees' Benefits Plan (PEBP), an agent multiple-employer defined benefit postemployment healthcare plan administered by the State of Nevada. NRS 287.041 assigns the authority to establish and amend benefit provisions to the PEBP nine-member board of trustees. District employees who meet the eligibility requirement for retirement within the Nevada Public Employee Retirement System have the option upon retirement to enroll in coverage under the PEBP and the subsidy provided by the District is determined by their number of years of service. The PEBP issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Public Employee's Benefits Program, 901 S. Stewart Street, Suite 1001, Carson City, NV, 89701, by calling (775) 684-7000, or by accessing the website at www.pebp.state.nv.us/informed/financial.htm.

Funding Policy. NRS 287.046 establishes the subsidies to be contributed toward the premium costs of the eligible retired district employees. Plan members receiving benefits have their monthly contributions deducted from their pension checks based on the health plan chosen by the retiree as reduced by the amount of the subsidy. Retirees qualify for a subsidy of \$102.62 at five years of service and \$564.41 at 20 years of service with incremental increases for each year of service between. The contribution requirements of plan members and the District are established and amended by the PEBP board of trustees. As a participating employer, the District is billed for the subsidy on a monthly basis and is legally required under

NOTE 16 - POST EMPLOYMENT HEALTHCARE PLAN (continued)

NRS 287.023 to provide for it. For fiscal year 2009, the District contributed \$17,327,505 to the plan for current premiums. The District did not prefund any future benefits.

Annual OPEB Cost and Net OPEB Obligation. The District's annual other postemployment benefit (OPEB) cost (expense) for the plan is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

For fiscal year 2009 and 2008, the District's annual OPEB cost (expense) of \$25,331,000 for the PEBP was equal to the ARC. The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2009 and 2008 is as follows:

| | ial OPEB Cost it Credit Cost | % of Annual OPEB Cost | Net OPEB | | | |
|-------------------|---------------------------------|--------------------------|------------|------------|--|--|
| Fiscal Year Ended | Method) | Contributed | Obligation | | | |
| 6/30/2009 | \$ 25,331,000 | 68% | \$ | 22,234,123 | | |
| 6/30/2008 | 25,331,000 | 44% | | 14,230,628 | | |

The following table shows the components of the District's annual OPEB cost for the past two years, the amount actually contributed to the plan, and changes in the district's net OPEB obligation to the PEBP:

| | | Fiscal 2009 | Fiscal 2008 | | |
|---|----|--------------|-------------|--------------|--|
| Annual Required Contribution | | 25,331,000 | \$ | 25,331,000 | |
| Interest on net OPEB obligation | | - | | - | |
| Adjustment to annual required contribution | | <u> </u> | | - | |
| Annual OPEB cost (expense) | | 25,331,000 | | 25,331,000 | |
| Contributions made | | (17,327,505) | | (11,100,372) | |
| Increase in net OPEB obligation | | 8,003,495 | | 14,230,628 | |
| Net OPEB obligation - beginning of the year | | 14,230,628 | | - | |
| Net OPEB obligation - end of the year | \$ | 22,234,123 | \$ | 14,230,628 | |

Funded Status and Funding Progress. The District's most recent actuarial valuation was as of July 1, 2007 and as of the end of the fiscal year the District has not prefunded any portion of the plan. The actuarial accrued liability (AAL) for benefits was \$283,969,000 and having not funded the obligation the District currently has no associated assets to offset this liability. Because of this the unfunded actuarial accrued liability (UAAL) is equal to the AAL. The covered payroll (annual payroll of active employees covered by the plan) was \$1.3 billion and the ratio of the UAAL to the covered payroll was 21.6%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions. Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit

NOTE 16 - POST EMPLOYMENT HEALTHCARE PLAN (continued)

costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2007 actuarial valuation, the unit credit cost actuarial cost method was used. The actuarial assumptions included an 8 percent investment rate of return which is the target rate of return for the Nevada Public Employee Retirement System. If the District ultimately chooses to fund the plan, they would fund it with trust assets invested by PERS. An annual healthcare cost trend rate of 9.5 percent is used initially, reduced by decrements to an ultimate rate of 5 percent after seven years. A standard 3.5 percent inflation rate was used throughout.

Changes in state law have impacted the assumptions in the current year. As of September 1, 2008, the plan was no longer available to those actively employed past this date.

The UAAL is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2009 is 28 years.

NOTE 17 - DONOR RESTRICTED ENDOWMENTS

In fiscal year 2004, Vegas PBS received a \$650,000 term endowment where the corpus (principal) is restricted from use for a set period of time. In fiscal year 2005, an additional \$100,000 was donated to the endowment. In subsequent years, a donation of \$184,912, \$184,715, \$150,000, and \$154,413 was made to the endowment for fiscal year 2006, 2007, 2008, and 2009, respectively. The donor has provided instructions relating to expending the net appreciation which is to allow Vegas PBS to spend the corresponding appreciation as they see fit for their various programs. The District does not currently have a policy restricting the authorization and spending of endowment investment income. State statute, NRS 164, allows a local government to authorize expenditures of net appreciation as is prudent for the government. As of June 30, 2009, there was no net appreciation recognized on these investments.

NOTE 18 - PRIOR PERIOD ADJUSTMENT

Vegas PBS entered into a lease agreement with Sprint Nextel, Inc. whereby Sprint Nextel leases available spectrum from Vegas PBS for commercial use. In fiscal year 2008, \$5,916,667 of lease revenue was recorded as unearned revenue as it was not considered available to Vegas PBS due to certain lease requirements. Upon further legal and accounting review of the lease, it was later determined that the lease revenue was available and should have been recognized as revenue in the period received. A prior period adjustment was recorded in the Vegas PBS fund to recognize the lease revenue from fiscal year 2008.

NOTE 19 - SUBSEQUENT EVENT

The overall fair market value of the District's general portfolio has decreased approximately 5% since the end of the fiscal year, June 30, 2009. Discount note and commercial paper rates of return have dropped approximately 60% over this period. Since approximately 54% of the District's general portfolio was comprised of discount notes and commercial paper at fiscal year end, it was greatly impacted by the steep rate declines.

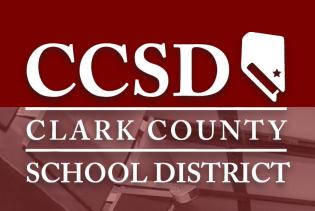

REQUIRED SUPPLEMENTARY INFORMATION

Schedule of Funding Progress for Clark County School District

| | | Actuarial Accrued | Unfunded | | | UAAL as a |
|-----------|-----------------|----------------------|----------------|--------|-----------------|-----------------|
| Actuarial | Actuarial | Liability (AAL) | AAL | Funded | Covered | Percentage of |
| Valuation | Value of Assets | Unit Credit | (UAAL) | Ratio | Payroll | Covered Payroll |
| Date | (a) | (b) | (b-a) | (a/b) | (c) | ((b-a)/c) |
| 7/1/2007 | \$ - | \$ 283,969,000 | \$ 283,969,000 | 0.0% | \$1,312,895,000 | 21.6% |

Note: Actuarial valuations are performed every other year so no new information is available for fiscal year 2008-09

Comprehensive Annual Financial Report

Major Governmental Funds

General Fund

To account for resources and costs of operations associated with the district which are not required to be accounted for in other funds.

Special Education Fund

To account for transactions of the district relating to educational services provided to children with special needs.

Debt Service Fund

To account for the collection of revenues and the cost of operations associated with debt service for general obligation debt.

Bond Fund

To account for the costs of capital construction and improvements paid for with bond proceeds.

Comprehensive Annual Financial Report

SCHOOL DISTRICT

Nonmajor Special Revenue Funds

District Projects Funds

To account for transactions of the district relating to programs supported reimbursements for school operations, private and governmental grants, gifts, donations, and grant-related cost recovery.

Vegas PBS Fund

To account for transactions and operations of the Vegas PBS group including private and government gifts, grants and bequests.

Federal Projects Fund

To account for transactions of the district relating to federal grant programs.

Medicaid Fund

To account for transactions of the district relating to grants and reimbursements from the Medicaid program for services rendered on behalf of eligible students.

Class Size Reduction Fund

To account for activity relating to the state's legislative mandate to align class sizes to a student-teacher ratio of 16:1 for first and second grades and 19:1 for third grade.

Adult Education Fund

To account for transactions of the district relating to the Adult Education program.

State Grants Fund

To account for transactions of the district relating to state grant programs.

¹ This schedule presents only the capital asset balances related to the governmental funds. Accordingly, the capital assets reported in the internal service funds and the enterprise funds are excluded from the above amounts. Generally, the capital assets of internal service funds are included as governmental activities in the statement of net assets. The capital assets of the enterprise fund are reported separately under business-type activities.

Comprehensive Annual Financial Report

Statistical Section

The Statistical Section of the District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures and required supplementary information says about the District's overall financial health.

Contents

Financial trends

These schedules contain information to help the reader understand how the District's financial performance and well-being have changed over time.

Revenue capacity

These schedules contain information to help the reader assess the District's most significant local revenue sources.

Debt capacity

These schedules contain information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.

Demographic and economic information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.

Operating information

These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and activities it performs.

Source: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The District implemented GASB Statement No. 3 in 2002; schedules presenting government-wide information include information beginning in that year.

| Total primary government net assets | \$ 755,116,552 | \$ | 834,979,347 | \$ | 1,025,700,863 |

^{1/} Fiscal year 2002 was the first year the District presented net assets under GASB 34 guidelines. As such, accounting data is only available for the last eight fiscal years.

NOTE: Accounting standards require that net assets be reported in three components in the financial statements: invested in capital assets, net of related debt; restricted; and unrestricted. Net assets are considered restricted when an external party, such as the state or federal government, places a restriction on how the resources may be used.

Notes: The District issues general obligation debt that is additionally secured by a pledge of proceeds of taxes deposited in the District's Bond Fund. Pursuant to applicable Nevada law, effective August 1, 1997, the County Treasurer has been depositing the proceeds of 1% room tax collected within the County in the Bond Fund. The proceeds of a tax equivalent to 60 cents for each \$500 of value on transferred real property is also deposited by the County. As of July 1, 1999, the District has continued to receive the proceeds of an additional 5/8% room tax collected within the County. The District pledges the room tax and the real property transfer tax revenues to pay debt service on certain general obligation debt.

Notes:

¹ Based on expenses reported in the government-wide statement of activities (governmental activities only), Fiscal year 2002 was the first year the District presented accounting information under GASB 34 guidelines. As such, accounting data is only available for the last eight fiscal years.

² Based on 4th week of enrollment.

³ Includes all instructional licensed staff.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Trustees Clark County School District Clark County, Nevada

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Clark County School District, Clark County, Nevada (the "District"), as of and for the year ended June 30, 2009, which collectively comprise the District's basic financial statements and have issued our report thereon dated October 12, 2009. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the District's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the District's financial statements that is more than inconsequential will not be prevented or detected by the District's internal control

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the District's internal control

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the District, in a separate letter dated October 12, 2009

This report is intended solely for the information and use of management and others within the District, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties

Las Vegas, Nevada October 12, 2009

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the Board of Trustees of the Clark County School District Clark County, Nevada

Compliance

We have audited the compliance of Clark County School District, Clark County, Nevada (the "District") with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the year ended June 30, 2009. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion Our audit does not provide a legal determination of the District's compliance with those requirements

In our opinion, the District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2009

Internal Control Over Compliance

The management of the District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the District's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the District's internal control

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the District's internal control

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above

This report is intended solely for the information and use of management, others within the District, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

CLARK COUNTY SCHOOL DISTRICT NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS FOR THE FISCAL YEAR ENDED JUNE 30, 2009

(1) Reporting Entity

The accompanying schedule of expenditures of federal awards presents the expenditure activity of all federal awards programs of the Clark County School District (the "District") for the year ended June 30, 2009. The District's reporting entity is defined in Note 1 to its basic financial statements. All expenditures of federal awards received directly from federal agencies as well as federal awards passed through other government agencies are included in the schedule.

(2) Basis of Accounting

The accompanying schedule of expenditures of federal awards is prepared on the modified accrual basis of accounting. The amounts shown as expenditures of the National School Lunch Program – Commodities program represent the fair value of commodity food received by the District

(3) Relationship to Basic Financial Statements

Expenditures of federal awards have been included in the individual funds of the District as follows:

| General Fund | \$ 82,625,377 |
|---|-------------------|
| Special Revenue Fund - Vegas PBS | 8,000 |
| Special Revenue Fund - Federal Projects | 142,889,979 |
| Enterprise Fund - Food Service | 59,078,286 |
| | |
| Total | \$ 284,601,642 |

4) Transfers

In accordance with the grant agreement, the District transferred \$682,812 of funds awarded under the Improving Teacher Quality State Grant - CFDA #84 367 to State Grants for Innovative Programs – CFDA #84 298 These expenditures have been reported under CFDA #84.367 in the Schedule of Federal Award Expenditures.

84 394 ARRA - State Fiscal Stabilization Fund

Dollar threshold used to distinguish between type A and type B programs \$ 3,000,000

Auditee qualified as low-risk auditee? Yes

CLARK COUNTY SCHOOL DISTRICT SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED JUNE 30, 2009

Section II – Financial Statement Findings

There were no findings

Section III – Federal Award Findings and Questioned Cost

There were no findings or questioned costs

CLARK COUNTY SCHOOL DISTRICT CURRENT STATUS OF PRIOR YEAR FINDINGS FOR THE YEAR ENDED JUNE 30, 2009

There were no prior year findings

CLARK COUNTY SCHOOL DISTRICT AUDITOR'S COMMENTS JUNE 30, 2009

CURRENT YEAR STATUTE COMPLIANCE

The Clark County School District conformed to all significant statutory constraints on its financial administration during the year except for those items identified in Note 11 of the accompanying financial statements

PROGRESS ON PRIOR YEAR STATUTE COMPLIANCE

The District monitored all significant constraints during the year ended June 30, 2009.

PRIOR YEAR RECOMMENDATIONS

We did not note any financial weaknesses of a magnitude to justify inclusion within this report. However, our audit did identify recommendations to improve procedures and accountability that have been included in our management letter dated October 10, 2008.

CURRENT YEAR RECOMMENDATIONS

We did not note any financial weaknesses of a magnitude to justify inclusion within this report. However, our audit did identify recommendations to improve procedures and accountability that have been included in our management letter dated October 12, 2009.

NEVADA REVISED STATUTE 354.6113

The financial statements of the Bond Fund (a capital projects fund) are located in this report at Schedule A-8.

As noted above, compliance with Nevada Revised Statutes is contained in Note 11 to the financial statements

NEVADA REVISED STATUTE 354.6115

A fund was created in accordance with Nevada Revised Statute 354.6115, "Fund to stabilize operations of local government and mitigate effects of natural disaster". However, the fund is inactive and had no fund balance at any time during the year. In future periods, funds may be deposited and/or accumulated in the Fund for Budget Stabilization if in any year general fund revenues have exceeded appropriated expenditure levels and the ending fund balance is not less than 2 percent of total general fund revenues as required by District Regulation 3110

INDEPENDENT ACCOUNTANT'S REPORT

To the Board of Trustees of the Clark County School District Clark County, Nevada

We have reviewed the assertion provided by management in accordance with Nevada Revised Statute 354 624(5)(a)

- · The identified funds are being used expressly for the purposes for which they were created
- The funds are administered in accordance with accounting principles generally accepted in the United States of America
- The reserved fund balances/net assets in the funds were reasonable and necessary to carry out the purposes of the funds at June 30, 2009 (based on the interpretation of reasonable and necessary provided by the Legislative Counsel Bureau)
- The sources of revenues, including transfers, available for the funds are as noted in the financial statements
- The funds conform to significant statutory and regulatory constraints on its financial administration during the year ended June 30, 2009, except as previously noted under statute compliance
- The balance and net assets of the funds are as noted in the financial statements

This assertion is the responsibility of the management of the Clark County School District

Kafoury amothory & Co.

Our review was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on the assertion. Accordingly, we do not express such an opinion

Based on our review, nothing came to our attention that caused us to believe that the assertion provided by management referred to above is not fairly stated in all material respects

Las Vegas, Nevada October 12, 2009
